TITLE	A Compendium of State Legal Standards for the Provision of Public Education, 1974-75
INSTITUTION	Lawyers' Committee for Civil Rights Under Law, Washington, D.C.
PUB DATE	76
SPON AGENCY	National Institute of Education (DHEW), Washington, D.C.
GRANT	NIE-G-00-3-0044
NOTE	2,718p.; The Legal standards cited and digested in this compendium served as the basis for the analytical study reported in EA 008 318. Individual states or territories may be special ordered by indicating ED number and individual states on order form. Cost for individual states except California: MF $.83, HC $2.06; California MF $.83, HC $6.01. Order will be returned unless ED number is followed by names of individual states or the notation "All"
EDRS PRICE	EDRS Price MF-$9.18 HC-$145.37
DESCRIPTORS	*State Legislation; *State Standards; *Educational Legislation; Laws; Standards; *Public Education; State Surveys
IDENTIFIERS	*United States

ABSTRACT

This compendium is an appendix to a 50-state study of current legal standards for public elementary and secondary education (See EA 008 318). It compiles and digests the statutory and regulatory standards concerning education for each of the fifty states, Puerto Rico, and three trust territories. Also included is a citation to each standard and a tabular description of the agency responsible for implementing the standard. The standards of each state or territory have been organized on a single microfiche. To improve accessibility, all of the provisions compiled have been categorized within each state by 37 topic areas. A brief "Users Guide," which describes the organization and use of the microfiche compendium, is found on initial frame of the first microfiche. Immediately following this guide, a "Matrix Coordinator" provides an index to each jurisdiction's standards. This matrix locates the beginning frame for each of the 37 topic areas, by jurisdiction. Moreover, the first frame of each individual jurisdiction's microfiche also provides an additional index to the 37 topic areas of that jurisdiction. Specifically, the 37 topic areas utilized are: Accountability, Accreditation, Admission Requirements, Adult Education, Attendance Requirements, Categorical Progress, Compensatory Education, Course or Credit Load, Curriculum, District Organization, Equal Education Opportunity, Evaluation, Experimental Programs, Extra Curricular Activities, Financial Records and Accounting Procedures, Grade Organization, Graduation Requirements, Guidance and Counseling Services, In-Service Training Programs, Libraries, Maintenance and Use of Pupil Records, Objectives of School System, Personnel Policies and Employment Practices, Promotion Requirements, Pupil-Teacher Ratios and Other Staffing Requirements, Pupil Transportation, Revenue, Safety and Health Requirements, School Calendar, School Construction and Equipment Standards, School Plant Requirements, School Size, Special Education, Staff Salary Schedules, Teacher Certification, Textbooks and Other Instructional Materials, Vocational Education.

Users' Guide To
The Compendium Of
State Legal Standards
For The Provision of Public Education

Introduction

The dual problems of manageability and accessibility have long been the deterrent to any comprehensive compilation of legal standards. The magnitude of these two problems is unusally imposing in the present study. It compiles statutory and regulatory standards concerning education for each of the fifty states, Puerto Rico, and three trust territories. In all, it is well over 3,000 pages. Printing costs and sheer bulk rendering paper reproduction prohibitive, the study is generally available only on microfiche, one fiche for each state or territory.

To improve accessibility for those interested in finding the legal standards for specific topics, all of the provisions compiled have been categorized by 37 topic areas.* Two factors have impeded more detailed organization by topic areas. First, the substantive enactments in state education codes are suprisingly dissimilar. Secondly, the dissimilarilty among states is further compounded by the generically different federally-mandated provisions which govern the trust territories.

The Index Matrix

The 37 topic areas and the 54 states and territories provide the basis for indexing the study. The index matrix, detailed on the following 8 pages, permits the identification of the exact "page" on each fiche where the provisions for a particular topic are located. For example, to find California's vocational education standards, locate the page of the matrix which indicates "Vocational Education." The intersection of the column for Vocational Education and the line for California yeilds the notation for the appropriate microfiche, California and the frame coordinated on the fiche. California vocational education provisions are on fiche number II, and begine with line 3, column 4. **(SEE: Figure I)**

yields

Additionally, the first frame of each jurisdiction's microfiche is an index to the 37 topic areas on the fiche. To find the vocational education provisions for all states and territories, for example, the user can either check the index frame on each jurisdiction's fiche or note each of the entried in the Vocational Education column in the matrix. Utilization of the matrix would probably be quicker for this example. The primary purpose of the index frames is to increase flexibility when the educational standards of a single jurisdiction are of interest.

Chapter 4B Closing of Schools 52 §61(13) 1957, 1961	Each board of education will discontinue the operation of any school within its jurisdiction, indefinitely or for a determined time, if the board finds that the continued operation of the school will be accompanied by tensions, frictions, disorder or ill will within the school so as to substantially impair effective standards or objectives of education of its pupils, or by potential impairment of peace, order and good will in the community, school district or county involved, or that the continued operation of the school is not in the public interest.	Each Bd. of Ed.	X			X	
Opinion of the Justices 276 Ala. 239, 160 So. 2d 648 1964	The authority to open and close schools is placed in the local school board which operates the school, subject perhaps to some supervision by the state board.	Local Bd.				X	
		State Bd.			X		
Lee v. Macon County Bd. of Ed. 231 F. Supp. 743 (M.D. Ala. 1964)	As long as the state maintains a school system, it cannot make public education unavailable for a class of citizens while making public education available to a different class of citizens in other areas of the county and state.	State	X				
§61(14) 1957	The determination to discontinue the operation of a public school will be made by the local board only after public hearing, which may be invoked by a majority of the board or upon petition of 100 voters, or upon petition of a majority of the school.						
§61(15) 1957	A determination to close or open a school will be final and not subject to judicial review.

52 §16 1927	The state board of education will prescribe rules and regulations for the grading and standardizing of public schools.	St. Bd. of Ed.	X				
Accreditation Standards for High Schools 1966	The Alabama State Committee for Recommendations on Accreditation for Jr. Sr. High Schools is composed of the staff members of the Division of Secondary Education of the Dept. of Education. Advice and notice of deficiencies in school operation are submitted through the Director of the Division to the superintendent of the school and its principal. The primary functions of the committee are evaluation and policy recommendations.	Committee for Recommendations on Accreditation			X		
	Accreditation standards must be approved by the State Board of Education.	St. Bd. of Ed.	X				
	Procedures and criteria for accredit must be approved by the State Superintendent of Education.	St. Sup. of Ed.	X				
	Programs of accredit are established to assist local school systems in maintaining and improving education opportunities.						
	It is necessary for all schools to submit annual reports and also special reports, when called upon, to the state dept. of education in order that the State Committee be informed of the status of all schools. Schools are accredited for only one year and are required to apply for accredit annually.	All Schools State Committee for Recommendations	X 		 X		
	The purpose of accredit is to give stimulus to the State Course of Study and to set forth procedures for organized curriculums. Schools must have leeway, and yet there is a need for uniformity in required and elective subjects, and in non-credit activities of the school.						
	The purpose of accreditation is to expand instruction in in terms of quality education so that pupils who have furnished the prescribed courses may be eligible for college, trade schools, other post high school courses, and be acceptable for employment in certain areas without further study.						
	Specific criteria for evaluation are in 3 major categories advise, warn, and non-accredit.						
	Advise: a deficiency which defracts from the quality of the school's education program, and if continued, would interfere with the learning process. If satisfactory progress is not made during the year in removing the deficiencies, it will be the policy of the state evaluation to warn the school. Non-accredit is the status of a school that has lost its accreditation.	State Evaluation Committee			X

Accredit Standards for High Schools 1966	Admission of average pupils who have been out of school for some time should be left to the judgment of the principal and teachers concerned.	Principal & Teachers				X	
Standard X	Admission and classification of pupils transferring from non-accredited jr. and sr. high schools to accredited jr. and sr. schools should be on the basis of demonstrated ability, record of attendance and of work done in schools previously attended. Credit for such courses pursued in a non-accredite school must be validated by successful completion of at least one semester of study in the accredited school and until the principal is satisfied that such credits should be allowed.						
	A pupil may also be admitted by successfully passing an entrance examination.						
	Pupils from other accreditd jr. and sr. high schools of this state and other states should be admitted upon official transcripts sent directly to the principals of the schools.						
52 § 298 (1935-1967)	A child who is 6 on or before 10/1 will be entitled to admission to the public elementary schools at the opening of these schools for the school year; a child who is under 6 on 10/1 will not be entitled to admission but an underage child who transfers from the first grade of a school in another state may be admitted to school upon approval of the board of education in authority. A child who becomes 6 on or before 2/1 may, on approval of board of education in authority, be admitted at the beginning of the second semester of that school year.	bd. of ed.				X	
Chapter 11A §321(1) (1970)	No person will be refused admission into or be excluded from any public school in Alabama on account of race, creed, color, or national origin.						
§321(2) (1970)	No student shall be assigned or compelled to attend any school on account of race, creed, color or national origin, or for the purpose of achieving equality in attendance of any persons of particular races, creeds, colors or national origins.						
§321(3) (1970)	No student will be denied admission to any public school when, in the determination of the child's parents or guardians, the time or distance of travel is so great as to risk the health or safety of the child or significantly impinge on the educational process.						
	Upon a determination being made that the time or distance of travel to another school is so great as to risk the health or safety of the child or impinge on the educational process, the parent will make written application to the school authorities, and they will admit the child.

Accredit for High Schools 1966	A) Special schools organized to meet the needs of handicapped individuals as well as night schools which meet fully the state standards of accredit are eligible to submit applications for accreditation to the state dept. of education.						
	B) If the night school is operated in the same building or under the same administration as the accredited day school, and credits earned in the day school are applied toward accreditation in the day school, all minimum requirements for accredit must be met if credit is to be allowed.						
	C) Adult basic education classes will follow recommended procedures as prescribed in the state plan. Credits will be allowed in keeping with this program.						
	D) A complete report on the night school must be submitted with the annual accredit report if the night school work is to be approved as an integral part of the accredited day school.	School					
	E) Accredited high schools may honor credits earned through courses taken in the general continuation school if the following conditions are met:	High Schools					
	1) the general continuation school must meet in general all of the accreditation standards of a regular state accredited day school.						
	2) the student who expects to earn credit or to graduate from a general continuation school must have all the courses approved by the principal under whose supervision the school is being administered.						
	3) the general continuation school, in addition to being approved by the local superintendent and board of education, must have the approval of the state department of education.	St. Dept. of Ed. Local Sup. Local Bd. of Ed.	X				
52 § 402 1927, 1939	The state board of education is authorized to expend the state illiteracy fund appropriated for the removal of illiteracy and for otherwise maintaining adult education programs; provided, however, that the state board of education is authorized to provide from that fund the necessary professional and clerical assistants to carry on the program. 52 §297 1927, 1956	Every child between the ages of 7 and 16 years will be required to attend a public school, private school, denominational school, parochial school, or be instructed by a competent private tutor, for the entire length of the school term in every scholastic year.	Child	X				
	Admission to the public school will be on an individual basis, on the application of the parents, legal custodian or guardian of the child, to the local board of education, at the beginning of each school year, under such rules and regulations as the board may prescribe.	Local Bd. of Ed.				X	
	The object of the compulsory education law is that all children will be educated to the extent prescribed. In other words, it is a minimum educational requirement.						
	Ogle v. Ogle, 275 Ala. 483, 156 So. (2d) 345.						
§301 1927, 1971	The following children, when issued a certificate of exemption by the county superintendent of education or the city superintendent of schools will not be required to attend school, or to be instructed by a private tutor, namely: a) a child whose physical or mental condition would prevent or render inadvisable attendance at school or application to study. Before issuing the certificate of exemption, the superintendent will require a certificate from the county health officer and/or from a regularly licensed physican that the child is physically or mentally incapacitated. b) a child 16 years of age and upward or a child who has completed the course of study of the public schools of the state through high school. c) where because of the distance the child resides from school and the lack of public transportation the child would be compelled to walk over 2 1/2 miles to attend a public school. d) where the child is legally and regularly employed under the provisions of the law relating to child labor.	County Sup. of Ed. or City Sup. of Schools				X	
	Nothing in this section will be construed so as to deny any right to any child granted under the exceptional child Educational Act.						
§302 1927	Each parent, guardian or other person having charge of any child who fails to attend school or be regularly instructed by a private tutor, who fails to send his child to school when his attendance is required, is guilty of a misdemeanor, punishable by up to $100 or 90 days of hard labor for the county. Prima facie evidence of violation of this section is absence of a child without the consent of the principal teacher of the school he attends.	Parent or Guardian	X				fine or jail
§303 1927	No parent or guardian will be convicted of violating the attendance law if he can establish to the reasonable satisfaction of the court that: 1) the teacher gave the child permission to be absent

	2) the parent or guardian is unable to provide the child with necessary books and clothes and that the parent reported this dependent condition to the juvenile court and offered to turn the child over to the state department of public welfare as a dependent child. 3) the parent has made a bona fide effort to control the child but has been unable to do so and files a written statement in court to that effect. 4) there exists a good and valid excuse for the absence. 5) the parent has made a bona fide, diligent effort to secure the regular attendance of the child and the absence has been without his knowledge.						
§304 1927	In case any child becomes an habitual truant or becomes a menace to the best interest of the school which he is attending and the parent files a written statement in court stating that he is unable to control the child, the attendance officer must file a complaint in the juvenile court to ascertain whether the child is a dependent, neglected or deliquent child.	Attendance Officer	X				
§305 1927	Parent or guardian must explain child's absence and a failure to do so will be admissable as evidence of the child being a truant.	Parent or Guardian	X				
§310 1927	The county superintendent of education or the city superintendent of schools will upon the receipt of the report from teachers and private tutors showing the enrollment of children between 7-16 years, compare and study reports with the list which has been compiled of the children who should attend each school and ascertain what children required to attend are not enrolled.	County Sup. of Ed. City Sup. of Schools	X				
§311 1927	It will be the duty of the county superintendent of education or city superintendent of schools to require the attendance officer to investigate all cases of non-enrollment and of non-attendance. If the investigation discloses that the non-enrollment or non-attendance was without valid excuse or good reason, and intentional, the attendance officer will be required to bring criminal prosecution against the parent.						
§314 1927	The county board of education will arrange the county, exclusive of cities, into attendance districts and appoint an attendance officer for every district created.	County Bd. of Ed.	X				
§317	Purposes of this chapter are to secure the prompt and regular attendance of pupils and to secure their proper conduct and to hold the parent or guardian liable for the child's non-attendance and improper conduct as a pupil.						
Accredit Standards for High Schools 1966	The daily attendance record of the individual pupil and the rate of dropouts of secondary school pupils are important criteria in evaluating the total school program.

52 § 408 1927	In every elementary school in the state there will be taught reading, spelling and writing, arithmetic, oral and written English, geography, history of the U.S. and Alabama, elementary science, hygiene and sanitation, physical training and other studies as may be prescribed by the state board. English will be the only language employed in the first six grades of the elementary schools of the state.						
52 § 433(17) 1965	The state board of education will constitute a courses of study committee consisting of two sections, an elementary and a secondary section. Secondary section includes grades 7 through 12; elementary section includes grades 1 through 6. Elementary section will consist of two teachers from each grade level, three elementary principals, two elementary supervisors and one college professor of elementary education. Secondary section will consist of three teachers from each secondary subject matter field, three secondary principals two secondary supervisors, and one college professor of secondary education.	St. Bd. of Ed.	X				
	Standards for membership on the courses of study committee will be prescribed by the state board and sent to every local board of education and every county and city superintendent.	St. Bd. of Ed.	X				
	Local boards of education, through their superintendent, will nominate persons to serve on these committees. Local boards will furnish credentials for each person recommended, to be forwarded to the state superintendent of education. The state board of education, upon the recommendations of the state superintendent of education, will appoint all members of the courses of study committee from nominees made by the local boards of education. About half of the members will be from school systems with 9,000 or more students and about one-half of the members will be from school systems with less than 9,000 students. Term of office will be for six years; or until their successors have been appointed.	Local Bds. of Ed. St. Bd. of Ed. St. Bd. of Ed.	X X	 X			
§ 433 (18) 1965	The courses of study committee will conduct continuing studies and evaluations of the courses taught in the public elementary and secondary schools of the state. It will prepare the contents of the courses of study for each grade and revise them from time to time. Consideration will be given to the required basic content, texts used and available, the educational objective of the course, changing scientific, technological and cultural developments, as well as established facts of American history, tradition and patriotism. The committee will at least once in each 2 years prepare a report of its recommendations, including compulsory minimum content of courses, materials, subject content and treatment in specific courses and subject areas. The report will be submitted to the state superintendent of education and to members of the state textbook committee for separate written recommendations to the state board of education for such action as may be considered advisable. 52 §1(8) (1963) See Grade Organization	Whenever any city, county, or other local school board determines it to be in the best interest of the public school pupils, it may prescribe the method and procedure to be employed in classrooms for teaching pupils of disparate ability, background and achievement in the public schools. Their authority will include the classification of students within the same grade level, based upon the results of intelligence tests general academic achievement in a particular area. This grouping of pupils within a class or grade will be prescribed by the local board of education only after consultation with the school superintendent, teachers, students, and parents of various pupils concerned and the decision reached will be solely within the discretion of the board.	local sch. bd.				X	
		local bd.				X	
		sch. sup teach., students		X			
	The local board may prescribe the times and hours and place of instruction for any grouping within schools and classrooms as it may consider advisable and may assign special teachers, prescribe special subjects or remedial courses, advanced or vocational courses and take other action as it may consider in the best interests of the students and the entire student body.	local bd.				X	
§1(10)(1963)	For the purpose of preventing or minimizing disciplinary problems, the local school board may classify and group pupils upon consideration of their social attitudes; their hostility to the social environment, their health, morals, cleanliness, and habits of personal behavior.	local sch. bd.				X	
§1(11)(1963)	A local board of education may in its discretion prescribe special courses in citizenship, health, morals or any other subject it may consider necessary to meet the needs of special groups of pupils, and may prescribe individual tutoring, counseling or group instruction and may assign special teachers and special classrooms, and may schedule courses either during or after regular school hours or at any time administratively feasible.	local bd.				X	
Chapter 4A §61(1)	Pupil Placement Law The legislature finds that increasing demands on the public economy for the continuance of education and the efficient maintenance of the public school system require consideration of a more flexible and selective procedure for the establishment of units, facilities and curricula as to the qualification and assignment of pupils.	legislature		X			
	The legislature also recognizes the necessity for a procedure for the analysis of the qualifications, motivations, aptitudes and characteristics of the individual pupils for the purpose of the placement, both as a function of efficiency in the educational process and to assure the maintenance of order and good will indispensable to the willingness of its citizens to continue an educational system.	legis.		X			
Davis v. Bd. of School Com'nrs 33 F.2d 53 (Fifth Cir. 1964)	The Pupil Placement Law must be administered without regard to race or color.

			M	A	S&M	D	Sanctions for Non-Complian
Accredit Standards for High Schools 1966 Standard XIX	All accredited schools are required to have a properly certified librarian with a minimum of 18 semester hours in library science. Schools with an enrollment of 299 or less are required to have a librarian with at least 8 semester hours in library science who devotes at least 1/2 of the school day to library service. (This requirement pertaining to hours in library science is not applicable to librarians who are already serving and have met the previous standards. However, it is recommended that they be encouraged to contimue training in library science to meet at least the minimum requirement.) Schools with an enrollment of 300 and over are required to have a full-time librarian. Each school with an enrollment over 800 should have a full-time clerical assistant in the library. Additional qualified personnel is required when the enrollment exceeds 1,000. The library must have a balanced collection of books with a minimum of 1000 titles, not including required reference books. There will be enough books to average at least 6 per pupil. Textbooks, professional books, encyclopedias with copyright dates of not more than 10 years, books in bad physical condition, and books with very small print are not acceptable to be included in the total book collection. All books must meet the prescribed standards of quality and be adequately distributed in the various fields of learning, be properly catalogued and made accessible to pupils. Schools which apply for accredit and need time to obtain the required number of volumes must submit a plan and have it approved by the Division of Secondary Education setting forth the school's proposal for meeting this requirement. A statement of progress must be attached to the accredit report until the agreement is completed. In addition to books, there must be a basic collection of recordings, tapes, filmstrips and other audio-visual materials. The selection of magazines and newspapers should be sufficient in number and quality to serve the pupils adequately. It is important to keep the accession record, card catalog, and vertical file up-to-date and in good order Physical facilities of the library must include a reading room big enough to seat 15% of the enrollment, a workroom with running water, conference room, and an office for the librarian. Adequate storage space should be available. The librarian and English teachers should co-operate in instructing pupils in the use of the library. There will be a minimum expenditure for the purchase of library books, periodicals, library supplies, and audio-visual materials. Equipment is not to be included in this amount. The following schedule is recommended:	Schools	X

Amendment CXI Section 256 Constitution (1956)	It is the policy of the state of Alabama to foster and promote the education of its citizens in a manner and extent consistent with its available resources, and the willingness and ability of the individual student, but nothing in this Constitution shall be construed as creating or recognizing any right to education or training at public expense, nor as limiting the authority and duty of the legislature to require or impose conditions or procedures deemed necessary to the preservation of peace and order. To avoid confusion and disorder and to promote effective and economical planning for education, the legislature may authorize the parents or guardians of minors, who desire that such minors shall attend schools provided for their own race, to make election to that end, such election to be effective for such period and to such extent as the legislature may provide.

52 §208 1935	There is established a fund for the public elementary and high schools of the state to be known as the minimum program fund. It will be used for providing a minimum school term and for the equalization of educational opportunity. This fund will comprise all appropriations made by the legislature to the credit of the minimum program fund.						
§209 1936	The minimum program fund will be used principally 1) to aid in providing at least a 7 months' minimum term for all schools and 2) to assist in the promotion of equalization of educational opportunity for all children in the public schools.						
	The following requirements, supplemented when necessary by regulations of the state board, will govern the apportionment of the fund. 1) Requirements for participating in the fund	St. Bd. of Ed.			X		
	a) the county will, for the year for which aid is requested, be levying and collecting the constitutional one-mill county school tax, the constitutional 3-mill county school tax, and the constitutional 3-mill district school tax. In determining the funds to which any county not levying one of these taxes is entitled, the proceeds will be considered as though the taxes were actually being levied and collected.	County	X				
	b) in the expenditure of all funds available for the minimum programs, the county will as nearly as practicable provide the same length of term in all schools except the non-tax areas.	County	X				
	c) the county will provide a school term of at least 140 days, or such part of that school term as can be maintained by using funds available and as defined by state board of education regulations; provided, the county board of education will not be required to provide the 140 day term in any districts which do not levy the 3 mill tax. Furthermore, if the county fails to operate for the 140 days, the needs of the county will be computed only for the actual period the schools are in session.	County County Bd. of Ed.	X X				(need not provide 140 day term for districts not levying the 3 mill tax.)
	d) the county will expend funds allotted for teacher's salaries in accordance with a salary schedule adopted by the county board of education and approved by the state superintendent of education as long as the salaries are equivalent to those allotted in the state minimum salary schedule.	County Bd. of Ed. State Bd. of Ed.	X		X		
	e) the county board of education will submit to the state superintendent of education under the regulations of the state board a proposed county-wide building program and a transportation program.	County Bd. of Ed. State Bd. of Ed.	X		X		
	f) any independent city in the county will meet the minimum standards as are required of the county board of education.	Independent City St. Sup. of Ed.	X		X

	g) the county or independent cities within the county will meet other standards as may be set up by the state board of education to promote equal educational opportunity and provide better schools.	County-Ind. Cities St. Bd. of Ed.	X		X		
	2) Determining cost of 7 mos. or established minimum program [see §215(a)]						
	3) Determining the funds available to provide the program as provided by §210-§215.						
	4) Determining minimum program funds needed by any county for the term as provided by §210-215.						
	5) Determining minimum program funds needed to provide an additional term of 2 mos. for the high schools.						
	a) Find the approved cost by allowing salaries of teachers and transportation. Add any other necessary expenditures approved under state board of education regulations.						
	b) If the cost is greater than the revenues, the difference will be made up by the minimum program fund.						
	6) State board to determine percentage allotments - the state board of education will determine the percentages of costs of the minimum program allotted to other than teachers' salaries.	St. Bd. of Ed.	X				
§210 1939	The state board of education will calculate an economic index of the financial ability of each county to support the minimum program fund.	St. Bd. of Ed.	X				
§211 1939	The state board of education will calculate for each county its per cent of the total assessed valuation of the state and this per cent will be the assessed valuation index of the county.	St. Bd. of Ed.	X				
§212 1939	The state board of education will calculate an average index of the financial ability of each county to support the minimum school program. This index will be expressed as a per cent of the state total to be calculated by adding the sums from §210 and §211 and dividing by the number 2. The state board will recalculate the index on the basis of the most recent available data once every 2 years.	St. Bd. of Ed.	X				
§213 1939	The state board of education will determine the total local funds available to provide the minimum school program for the entire state: multiply 1/2 of 1 percent of the total assessed valuation of the state on which taxes were due.	St. Bd. of Ed.	X				
§214 1939	The state board of education will determine the total local funds available to each county to provide the minimum school program by multiplying its average index of financial ability (§212) by the total local funds available to provide the state minimum school program (§213). §215 1939	The state board of education will determine the amount needed by each county from the minimum program fund.	St. Bd. of Ed.	X				
§215(a1)	In order for the public schools of a county to share in the apportionment of the minimum program fund, the county or independent city will also provide for the year for which aid is requested at least a minimum of local participation in the cost of operating the schools of the area. The required minimum of local participation will be an amount equal to the proportion of the state average of local participation in ADA as the per capita income of the residents of the county bears to the per capita income of the residents of the whole state for the year. The state average of local participation per student in ADA will be computed on the basis of local taxes specifically levied and designated for educational purposes. To determine the minimum of local participation, all moneys used or available for use by the county or city board of education for the operation of schools will be considered part of local participation. If the average of participation by the county and all the independent cities meets the minimum, then it will be considered to be meeting the minimum required local participation.	County or Ind. City	X				If the average of the participation by a county and the independent cities does not come up to the minimum, then it will not be entitled to share in the minimum program fund.
§215(a2) 1969	The director of the dept. of industrial relations will certify to the state board the per capita income of the residents of the various counties for the preceding calendar year.	Director of dept. of Ind. Relations	X				
§215(a3) 1969	The commissioner of revenue of the dept. of revenue of the state will determine the state average of local participation per student in ADA in the systems of each county and will determine the amount of local support and report it to the state board of education.	Com'nr of Revenue	X				
		St. Bd. of Ed.			X		
§215(a4) 1969	In determining the number of teacher units to be allowed a county or independent city for apportioning the minimum program fund, one teacher unit will be allowed for each 28 pupils in ADA during the preceding school year in all the public schools of the county, provided that those systems which show an increase in ADA during the subsequent year may be allowed one additional teacher unit for each 28 pupils in such increase in ADA for the subsequent year.						
§215(a5) 1969	Whenever any county has complied with the requirements for participation in the apportionment of the minimum program fund, and there is an individual school district located therein, the state board of education will pay directly to each such city board of education its proportionate share of minimum program funds.	St. Bd. of Ed.	X				
	County boards of education are hereby relieved of the duty of furnishing information needed to calculate state funds needed by any city board to maintain the minimum program.	County Boards	relieved of reporting responsibility for independent city				
	Each city board is required to furnish all such information and to file such records and reports as the state board of education may require in order to receive state funds. It is required to account for expenditures in the same manner provided for county boards of education.	City Bd. of Ed.	X				
	The state superintendent of education and the state board of education are authorized to promulgate rules and regulations to implement this section.	St. Sup. of Ed. St. Bd. of Ed.			X	X

§513(1) 1959	Legislative finding of fact and declaration of intent - The taxes and other revenues set aside and devoted by law to educational purposes are not sufficient to make the large capital outlays required for construction, maintenance and operation. The only feasible way in which the needed buildings can be provided is by anticipating the receipt of a portion of revenues devoted to educational purposes by capitalizing those revenues so that they may be applied for retirement of the costs of construction. It is necessary, therefore, to anticipate the sales and use taxes in order to effect the needed capital outlays.						
§513(3) 1959	The director of finance, the com'nr of revenue, the state auditor, the state treasurer and the state superintendent of education may become a corporation with the power to issue bonds as provided by this chapter.	State Officials				X	
§513(8)	The Alabama authority is authorized from time to time to sell and issue its bonds, not exceeding $100,000,000 in aggregrate principal amount, for the purpose of providing funds for the acquisition of school building sites, improvement of facilities and payment of obligations incurred for any of these purposes. § 534(26)	Each school board will provide not less than 12 consecutive years of appropriate instruction and special services for exceptional children, beginning with those six years of age. This public school instruction and special services will be made available at public expense for each school year. The funds will be derived from state, county, municipal, district, federal or other combinations of sources. Each school board will set aside from its reserves amounts as are needed to carry out the exceptional education provisions if the funds are available without impairment of regular classes for non-exceptional children.	Local School Bd.	X				
	If sufficient funds are not available for both exceptional and non-exceptional children, the board must prorate all funds on a per capita basis between exceptional and non-exceptional children. No matriculation or tutition or other fees are required of exceptional children, except those which may be charged uniformly of all public school pupils.	Local School Bd	X				
§ 534(27) 1971	The state board of education will adopt in 9/72 a five year incremental plan for the implementation of instruction and special services for exceptional children residing in its school district, including a procedure for obtaining certifications of exceptional children by a specialist.	St. Bd. of Ed.	X				
	The plan will be binding on the school board which submitted it and will be adhered to unless subsequent modifications are approved by the state board.	St Bd. of Ed.				May approve modifications	
§ 534(28) 1971	The state board of education is in charge of adopting regulations covering: a) the qualifications of specializing for each type of exceptionality and standards for certification of exceptional children; b) minimum standards of instruction and special services to be provided for each type of exceptionality at each age or grade level; c) reasonable qualifications for personnel needed to work with exceptional children; d) guidelines for 5 year incremental plans for implementation of the program set forth for typical situations situations likely to be encountered by school boards in the state; e) other rules and regulations as may be necessary to carry out the purposes of this chapter.	St. Bd. of Ed.	X			X	
	The state board of education will receive, review, and approve or disapprove plans submitted by the school boards whose plans are disapproved; provided that disapproval of a plan will only be due to failure of the plan to meet the minimum standards of the state board regulations and any such disapproval will specify the reasons.	St. Bd. of Ed.	X		X		
	If an approval cannot be worked out satisfactorily, the state board of education will provide a plan which will be binding on the local school board.	St. Bd. of Ed.	X		X		
	The state board of education will have the primary responsiblity for enforcing compliance with plans and its regulations.	St. Bd. of Ed.	X		X		If any local boar failes or refuses to implement the plan, the attorne general will upon request bring a civil injunctive suit to compel enforcement. He will also bring suit against the state board if it fails in its dutie
§ 534 (29) 1971	During the 5th year of implementation of the incremental 5 year plan, each school board will submit a long-range plan for providing appropriate instruction and special services for exceptional children and will submit it to the state board of education.	Local Bd	X				
	After being modified by the state board, the plan will be adhered to by the local board.	St. Bd. of Ed.	X		X	X	
	The long-range plans will be resubmitted to the state board for its review at such intervals as it may establish in its rules and regulations, somewhere between once every 2-7 years. The procedure for approving, disapproving, establishing and enforcing the long-range plans will include provisions for the following:	St. Bd. of Ed.	X			X

	1) establishment of special education class, instruction, curricula, facilities, equipment and special services. 2) utilization of teachers and other personnel. 3) attendance requirements for exceptional children. 4) services for exceptional children whose condition will not permit them to profit from any kind of school program, such as day care, recreational programs, etc. 5) payment of tuition and other costs for attendance, not to exceed the average per pupil appropriation for all exceptional children in the school district, including allowances for teacher units, transportation and all other aid for exceptional children. The payment will be limited to the extent that the child's needs cannot be met in the schools and to private institutions which are accredited by the state board of education. Institutions which have not met minimal standards will not be eligible to receive state funds; nor will funds be expended for training in any school outside the state. The enrollment of a child at an appropriate state institution will relieve the school board from any further responsiblity for the child during his enrollment there.	St. Bd. of Ed.			X		Institutions which do not meet minimal standards do not get state funds.
§ 534 (30) 1971	One teacher unit will be allowed for each group of 8 or more exceptional children not exceeding 15, to be taught by a properly qualified full-time teacher as a special class. Minimum number of students required for this unit may not be less than five, as authorized by regulations of the state board of education where instruction for larger numbers would not be practical. One-fifth of a unit may be authorized for exceptional child taught in communities where fewer than five exceptional children are in need of special instruction as determined by the school board.	St. Bd. of Ed.	X			X	
		Local school bd.	X			X	
	Homebound or hospitalized children unable to attend school may be taught by duly qualified teachers, and one teacher unit will be allowed for each 900 instruction hours and a proportionate part of one unit for less than 900 hours.						
§ 534 (31) 1971	No child will be given special services under the terms of this chapter until he is properly classified as an exceptional child. The child's parent or guardian will be informed of the reasons for the classification. A copy of the report will be kep on file according to state board of education regulations. Local boards will use regular school facilities and adapt them to the needs of exceptional children, except as otherwise provided. No exceptional child will be segregated and taught apart from other children until a careful study has been made leading to the conclusion that such segregation is necessary.	St. Bd. of Ed.	X			X	
		Local School Bds.	X				
	Placement will be made on the basis of the placement committee recommendation, whenever possible. Confidential records on the exceptional child will be kep with the school principal.	Placement Committee		X

2) has completed the institution's program approved by the National Council for the Accreditation of Teacher Education for the education of elementary teachers or has earned the following minimum basic credits

	*Quarter Hours	Semester
Professional Education	40 1/2	27
Social Science	27	18
English, Literature and Speech	21	14
Science	18	12
Math	4 1/2	3
Psychology	4 1/2	3
Art	4 1/2	3
Music	4 1/2	3
Health & Physical Ed	4 1/2	3

Upon proof that the teacher has spent four years in the area and level for which the certificate was issued, the certificate may be renewed for an additional 8 years.

Class A Elementary Professional Certificate

The class A certificate is valid for 10 years and authorizes the holder to teach in grades 1-6. The certificate may be issued to one who:

1) either holds or meets requirements for the Class B Elementary Professional Certificate.
2) has been awarded a master's degree in elementary education.

The certificate may be continued for 10 years from its expiration date upon proof of successful experience as a teacher in the area and level for at least 5 years during the valid period of the certificate or by earning 12 quarter hours (8 semester hours) of graduate credit.

Class AA Elementary Professional Certificate

This certificate authorizes the holder to teach in grades 1-6 and is valid for 12 years. One must hold or meet requirements for a Class A Elementary Professional Certificate and have completed a 6th year program of graduate study, with a minimum of 45 quarter hours (30 semester hours), subsequent to the completion of all requirements for the master's degree in an institution approved for a doctoral degree. This certificate may be continued for a period of 12 years from its expiration date upon proof of successful experience as a teacher in the area and the level for which the certificate is issued for at least 6 years or by earning 12 quarter hours or 8 semester hours of graduate credit.

Class B Secondary Professional Certificate

It authorizes holder to teach in grades 7-12 and is valid for 8 years. It may be issued to a person who meets the following requirements:

1) has graduated with a bachelor's degree and has met requirements as prescribed by the state board of education for the education of secondary teachers.

2) has completed the institution's program approved by the National Council for the Accreditation of Teacher Education or has earned the minimum basic credits:

	Quarter Hours	Semester Hours
Professional Education	31 1/2	21
English, Literature, Speech	21	14
Social Science	18	12
Science	18	12
Math	4 1/2	3
Psychology	4 1/2	3

3) a major of 36-45 quarter (24-36 semester) hours in an approved subject.

4) a minor of 27 quarter (18 semester) hours in an approved subject.

Certification may be continued for an additional 8 years upon proof of successful experience as a teacher for at least 4 years.

Class A Secondary Professional Certificate

It authorizes the holder to teach in grades 7-12 and is valid for 10 years. It may be issued to one who either holds or meets requirements for Class B Secondary Professional Certificate and has been awarded a master's degree, including 9 quarter (6 semester) hours in the person's teaching fields and 9 quarter (6 semester) hours in professional education appropriate for secondary classroom teachers. May be continued for 10 years upon proof of 5 years successful teaching experience.

Other kinds of certificates are explained in detail in Certification of Alabama Teachers (1966).

52 § 403 1927	The state board of education, on the recommendations of the state superintendent of education, will prescribe the minimum contents of courses of study for all public, elementary and high schools in the state, and shall fix the maximum number of books which are compulsory in each grade of the elementary schools.	St. Bd. of Ed.	X				
		St. Super. of Ed.		X			
§ 433(1) 1945	There is hereby created a state textbook committee. It shall be the duty of the committee to reconsider the merit of textbooks offered for use in the tax-supported public elementary and high schools of the state and to make recommendations to the state board of education. In making recommendations the committee will consider recommendations made by the committee on courses of study or by the state superintendent of education.	St. Text-book Comm.	X	X			
		St. Text-book Comm.				X	
	The state textbook committee in its recommendations will consider staggering expenditures for textbooks from year to year.	St. Text-book Comm.				X	
(2) see subsection 19	The state textbook committee will be composed of 14 members appointed by the state board upon the nomination of the state superintendent of education.	St. Bd. of Ed.	X				
	The state superintendent will submit the names of 2 teachers from each of the congressional districts in the state; the state board of education will choose 1 teacher from each district. In addition to these 9, the state board of education, upon nomination of the state superintendent of education will appoint 5 members from the state at-large to the textbook committee. At least 12 members will be employed as classroom teachers; 6 from the elementary grades, 6 from the secondary school grades.	St. Bd. of Ed.	X				
(3) amended by 21	At its annual meeting the state textbook committee will determine the subjects or fields in which changes are desirable. Every textbook listed on a current adoption will be reviewed at least once every 6 years.	St. Text-book Comm.	X				
(5)	As soon as possible following the annual meeting, the state textbook committee will consider the merit of each textbook offered for adoption taking into account subject matter, printing, binding and rate each book according to its merit, suitability and desirability. The grading or rating will be done in executive session; it will be a misdemeanor for any member of the committee to disclose ratings, gradings to anyone except to the state board of education.	St. Text-book Comm.	X				$500 - up to 6 months hard labor
(6) changed by 22	The state textbook committee will recommend the 6 best books for each subject. No book will be selected as suitable and desirable by the state textbook committee which contains anything of a partisan character. The committee also has the authority to recommend other instructional materials which will improve the instructional program or when requested to do so by the state board of education.	St. Text-Comm.	X				
(6a) 1954	No book will be approved that does not contain a statement by the publisher that the author is not a member of the communist party or advocates socialism.

(7) 1959	The state board of education will select and adopt a series of textbooks and will have the authority to designate textbooks to be taught and the length of time for any of them. The state board will have full power to provide for textbooks for the public schools of the state, to adopt a multiple list of textbooks, and to contract with or extend textbook contracts with the publishers. The state board will have full power to adopt any textbook for such period of time as it deems to be the best interest of the patrons of the public schools.	St. Bd. of Ed.	X				
(8)	It is the duty of the state board to negotiate with publishers of textbooks for the preparation of special textbooks.						
(9)	It will be the duty of the state board of education to provide for the distribution of textbooks in the state by such method that it deems to be in the best interest of the public schools. The state board of education may, from time to time, establish systems of distribution and may promulgate rules & regulations governing it. The state board will have the authority to require the return of any book purchased at state expense & acceptance of state aid will mean acceptance of the terms prescribed by the state board of education. After the state board has approved the general plan and method of distribution, it will be the duty of the state superintendent of education to carry the plan into effect.	St. Bd. of Ed. St. Sup. of Ed.	X X				
	The state board will establish the maximum price to be paid by the patron of the public schools for each textbook including a reimbursement for expenses incurred in handling, distributing, not to exceed 5% of the purchase price.	St. Bd. of Ed.	X				
	Each county and city board of education may create an advisory textbook committee to consist of the superintendent & 4 other members with authority to recommend textbooks to be used in the school system from the list of textbooks adopted by the state board of education.	County & City Bd. Ed. Advisory Textbook Comm.		X			
(13) 1959	The state board of education is authorized to purchase and furnish state-owned textbooks for the tax-supported public schools insofar as available appropriations permit. It will pay the expenses of administering this section thus: In any county of the state where the pro rata share of the county's part of the sum appropriated for the purpose of furnishing state-owned textbooks is not sufficient to provide free textbooks for all of the grades in the public schools from 1 to 6, then the authorities will purchase any books for the first grade, the second grade, and so on. Any funds in the state treasury which have accrued to the credit of the textbook purchasing board will administer as now provided by law.	St. Bd. of Ed.	X

S 5771 (1968)	- It is the intent and purpose of the legislature that the elementary school reading program shall be directed to the prevention of reading disabilities. It is the further intent of the legislature that the reading program be of high quality and that the program be designed to permit early development of reading skills and the early correction of disabilities. It is also the intent of the legislature that the provisions of this chapter be administered to provide funds and services first to those school districts and to the schools in those districts where the need for reading instruction is greatest and the financial ability to provide it is least.						
S 5771.1	If a school district is unable to participate fully in the reading program because of its inability to employ enough specialist teachers to fully meet the basic quota of certificated employees to be appointed specialist teachers, the governing board of the district may request approval of the SPI for participation in the program on a reduced basis under specific conditions.	local bd. SPI			 X	X 	
S 5774.4	The coordinated project or program shall include a specialist teacher and any other educational component that is approved by the SBE. Each project or program shall include provision for evaluation.	coord. proj. SBE	X 		 X		
S 5775	The governing board of any school district with grades 1-3 may nominate to the SDE qualified certificated employees of the district for the position of specialist teacher. The SBE shall appoint a panel of 3 to either nominate the employee for such position or deny such nomination.	local bd. SDE				X 	
S 5777	The S.B.E. shall designate a written exam to be administered to such person nominated as specialist teacher.	S/B/E	X				
S 5778	Those passing the exam shall be granted certificates entitling them to accept employment as a specialist teacher in reading.	S/B/E			X		
S 5778.3	Provides an alternate method to that presented in §§ 5775, 5776, 5777 and 5778. Potential specialist teachers are examined by a review committee appointed by the local board.	review cmtee (local bd.)			X

S 6451	The Legislature finds and declares that because of home, community, environmental and other conditions which give rise to language, cultural and economic disadvantages, the latent talents of many minors are not adequately developed. It is the intent and purpose of the legislature to encourage the establishment and development of programs directed to identifying those pupils who are potentially capable of completing the regular courses of instruction leading to graduation and by special services, techniques and activities to stimulate their interest in intellectual and educational attainment.						
S 6452	A "disadvantaged minor" is a minor who is potentially academically able but scholastically underachieving and must compensate for inability to profit from the normal educational program. He is a minor who: (a) is 3 years of age or more, but under 18 and has not graduated from high school (b) is potentially capable of successfully completing a regular educational program leading to graduation from school in which he is enrolled. (c) is, because of home and community environment, subject to such language, cultural, economic and like disadvantages as will make improbable his completion of the regular program leading to graduation without special efforts by school authorities to stimulate his potential.						
S 6454	Each county superintendent of schools is authorized, upon request, to provide consultative and coordination services for the school districts under his jurisdiction which have established programs of compensatory education.	co. supt.				X	
	Such activity shall be financed through the county school service fund.	co. schl. serv. fund	X				
S 6455	The SBE may establish programs of the following types: (1) Establishment or modification of curricula for teacher training to include techniques for the instruction of the disadvantaged. (2) Research and consultative work projects undertaken to assist state and local agencies in carrying out their responsibilities under this chapter. (3) Research and development directed to overcoming disadvantage.	SBE				X	
	It is the intent of the legislature that the University of California and California State Colleges participate to the extent practicable with local school agencies and with the SBE under this chapter.	cal. coll. & univ.		X

S 6464	The legislature finds and declares that: (a) a significant number of children between 3 and 17 of migrant agricultural workers attend schools in California, in approximately 200 districts. These children, from the least affluent segment of American society, tend to move frequently, attend school irregularly, and suffer health defects and language handicaps which significantly inhibit their progress in school. This results in many becoming early school dropouts, poorly prepared for personal growth and fulfillment or economic success or upward social mobility. (b) The problems of children of migrant agricultural parents are of such magnitude and severity that local school districts have been unable to solve them with the resources normally available. It is, therefore, necessary for the state to aid local school districts through regional coordinating agencies.						
S 6464.2	"Migrant child" means a child who has moved with his family from one school district to another during the past school year, in order that a parent or other member of his immediate family might secure employment in agriculture or related food processing activities.						
S 6464.3	The SBE shall adopt and submit to the legislature by April 1, 1974, a state master plan for services to migrant children. Such plan shall include the following: (a) instructional activities on a regular and extended year basis shall be designed to identify, diagnose, and provide treatment for academic deficiencies of migrant children. Special emphasis will be given to oral and written communications, reading and mathematics. Small group or individual instruction and tutorial services will be provided to assist migrant children attain normal progress rates in all subject areas. All instructional services will be provided as supplements to regular programs of instruction provided by the public schools for all children. (b) Health and welfare services shall be designed to identify, diagnose, and provide treatment for conditions of a physical, including dental, emotional or environmental, nature which interfere with the learning processes of migrant children. Insofar as possible, existing community resources will be utilized to provide these services.	SBE	X

S 6490	It is the intent and purpose of the legislature that exemplary programs be established for intensive instruction in reading and math to serve as demonstration projects aimed solely at developing above-average competence. The program shall be developed to serve pupils in grade 7, 8 or 9 who attend school in designated areas of disadvantage and who would normally have difficulty in high school. It is also the intent of the legislature that authority be granted to permit the waiver of any provision of the Education Code by the program-approving agency if it is necessary for the demonstration programs.						
S 6491	The SPI, upon recommendation of the Director of Compensatory Education, with the approval of the SBE shall administer this article and make apportionments to school districts to meet the total approved expense of the districts incurred in establishing demonstration programs in reading and math for pupils in grades 7, 8 or 9.	SPI dir. of comp. ed SBE		X	X	X	
S 6492	The governing board of any district which maintains grades 7, 8 or 9 on account of any school located in any area designated under §6482 by the Director of Compensatory Education may make application to establish and operate a program under this article.	local bd.				X	
S 6499.32	It is the intent of the legislature that not more than 5 program improvement schools be established throughout the state to offer educational programs which are developed by the director and staff of such schools in cooperation with representatives of the local community.						
S 6499.38	The SBE shall exempt from any and all provisions of the Education Code a program improvement school when deemed necessary by the school director.	SBE			X		
S 6499.41	The SBE shall provide for the evaluation of the program improvement schools.	SBE			X		
S 6499.52	It is the intention of the legislature that programs be established to reduce the number of children not completing their elementary or secondary education. Such programs are to be designed to develop educational practices for the reduction of dropouts in schools with high concentrations of children from low-income families and with high dropout rates.						
S 6499.54	Any school district may apply to establish a dropout prevention program. The application shall be submitted to the SBE and shall contain a detailed plan including specified information.	local bd. SBE			X	X	
S 6499.55	In approving applications for program approved, the SBE shall give priority to the acceptable applications from (1) districts with the highest concentrations of children from families with an annual income of $4,000 or less, and (2) districts which exceed the average statewide dropout rate. S 5761 (1972)	The legislature finds that there are large numbers of children in this state who come from families where the primary language is not English. To determine more exactly the need in this area, an annual census is necessary. The inability to speak, read and comprehend English presents a formidable obstacle to classroom learning and participation which can be removed only by instruction and training in the pupil's dominant language. The legislature further recognizes that high-quality bilingual programs in the public schools would allow the acquisition by students of educational concepts and skills needed to improve the development of human resources in the State. The Legislature finds and declares that a primary goal is, as effectively and efficiently as possible, to develop in each child fluency in English so that he may then be enrolled in the regular program.						
	The Legislature further recognizes that to achieve its intent and purpose it will be necessary to provide means and incentives to train and employ bilingual education teachers and paraprofessional personnel.						
	It is the purpose of this chapter to allow public schools of the state of California which choose to participate to establish bilingual educational programs. The primary goals of such programs shall be to develop competence in 2 languages for all participating pupils, to provide positive reinforcement of the self-image of participating children, and to develop intergroup and intercultural awareness among pupils, parents and the staff. It is the intent of the Legislature to provide supplemental financial assistance to help meet the special costs of phasing-in bilingual education programs.	schools				X	
S 5761.1 (1972)	The SBE shall adopt all rules and regulations necessary for the effective administration of this chapter.	S/B/E			X		
S 5761.4	Each non-English-speaking child shall receive special assistance from the school district which he attends in a manner approved by the local board. This shall not be construed to require participation by any district in the bilingual program established by this chapter.	schl. dist.	X				
		locl. bd.			X		
		schl. dist.				X	
S 5761.5	Each participating school district shall prepare a determination of what actually exists in terms of educational achievement levels in a given school district.	schl. dist.	X				
5761.6	Each school district wishing to participate shall write a project on forms provided by the SDE.	schl. dist.	X				
S 5761.7	Each participating school district shall have an articulated sequential program of instruction in bilingual education, designed to develop competence in English and in the primary language of limited-English-speaking participants.	schl. dist.	X				
S 5761.8	At the beginning of each school year, the district shall evaluate each child to be placed in a bilingual program.	schl. dist.	X

S 885	The legislature hereby declares that it is in the interest of the state and of the people for the office of the county superintendent of schools through the county service fund to provide coordination of the educational program among the districts under his jurisdiction and to provide professional and financial assistance to school districts which otherwise, because of size or location, would not be able to furnish a satisfactory program of education for their children. Such assistance is a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state. As an additional need, the legislature recognizes the necessity to provide professional services in districts too small to provide such services for themselves economically and efficiently such as (a) to prepare courses of study; (b) to supervise instructional practices; (c) to provide direct guidance services, health services and attendance services; (d) to provide for the purchase, distribution and use of supplementary instructional materials and equipment; and (3) provide educational opportunity to normal and special pupils who would otherwise be denied it.						
S 885.1	Any service of the county superintendent mentioned above is subject to budget and other restrictions.						
S 1054	The governing board of any school district shall maintain all of the elementary day schools and day high schools with equal rights and privileges as far as possible.						
S 5015	Same as §1054.						
	See Compensatory Education.						
S §7504 (1974)	The legislature hereby recognizes that it is the policy of the people of the state to provide an equal educational opportunity to every individual to the end that every student leaving school should be prepared to enter the world of work; that every student who graduates from any state-supported educational institution should have sufficient marketable skills for legitimate remunerative employment; that every qualified and eligible adult citizen shall be afforded an educational opportunity to become suitably employed in some remunerative field of employment; and that such opportunities are a right to be enjoyed without regard to race, creed, color, national origin, sex, or economic status.						
S 20301 (1959)	There is a county treasury of each county receiving federal funds for the education and care of Indian children in accordance with contracts between the state department of education and the U.S. government, a special fund known as the county Indian reimbursement fund.	county treas.	X				
R CAC 14020	It is the policy of the state board of education that persons or agencies responsible for the establishment of school attendance centers will exert all effort to prevent and eliminate racial and thnic imbalance in pupil enrollment. The prevention and elimination of the imbalance will be given high priority in all decisions relating to school sites, school attendance areas and practices.	S. B. E.

			M	A	S&M	D	
S §11006 (1969)	The minimum school day in grades 4,5,6,6,and 8 in elementary schools and in special day and evening classes is 240 minutes.						
S §11006.5 (1973)	The minimum school day in grades 1,2,and 3 in elementary schools may be computed by determining the number of minutes of attendance in any 10 consecutive school days and dividing that number by 10. The resulting quotient must be more than 230 and the number of minutes attended in any one school day must be greater than 170. Likewise, the minimum school day for grades 4-8 may be computed by determining the number of minutes of attendance in 10 consecutive school days and dividing by 10. The resulting quotient must be 240 or more and the number of minutes attended in any on school day must be greater than 180.						
S §11008 (1963)	With respect to educationally handicapped pupils, the minimum school day in kindergarten is 180 minutes; in grades 1,2,and 3 in elementary schools is 200 minutes; and in grades 4,5,6, 7,and 8 in elementary schools is 240 minutes.						
S §11051 (1959,1967)	No pupil in a high school other than a pupil in a vocational, evening or continuation class, will be credited with more than one day of attendance on any calendar day.						
S §11052 (1959,1971)	The minimum school day in any high school, except in an evening, vocational, continuation, or late afternoon program, is 240 minutes. The minimum school day may be determined by determining the number of minutes of attendance in any 10 consecutive school days and dividing by 10.						
S §11054 (1959,1972) R (CAC) 10	With respect to educationally handicapped pupils the minimum school day is 240 minutes unless otherwise provided by the the governing board, the daily school session in elementary schools will be as follows: GRADES — BEGIN -- END — INTERMISSION 1,2,3, — 9 A.M. - 2:10 P.M. — 12 N - 1 P.M. 4-8 — 9 A.M.- 4 P.M. — 12 N-- 1 P.M.	Gov. Bd.				X	
"	In kindergarten and every grade and class in the elementary schools, a total of at least 20 minutes daily will be devoted to recesses. Unless otherwise provided by a regulation of the governing board, a pupil in preschool, kindergarten, or grades 1,2,or3 will not be kept in school longer than one hour without a recess, except that at the end of the day the period may be one hour and 10 minutes. 	Such standards shall emphasize fundamental school subjects with the aim of returning the pupils to the regular school program at the earliest possible date consistent with the interest of the pupil.	"	X				
S 6751	The special education programs for the educationally handicapped pupils are: (a) Special Day Classes- (elementary & secondary) These are to be maintained for not		X				
	less than the minimum school day: Fundamental school subjects (as prescribed by the State Board of Education) shall be emphasized.		X				
	(b) Learning Disability Groups (Elementary & secondary) The pupil remains in regular class but has individual or groups instruction scheduled by a special teacher. If 1 to 4 pupils in such a group, the total attendance credit for the pupils shall equal one unit of attendance for each 60 minutes of instruction. (c) Specialized consultation- to teachers, counselors, & supervisors (Elementary & secondary). (d) Home & hospital instruction		X				
	(e) Regular class instruction- when less than 6 such pupils exist in area served by a district & transportation is unreasonable as the distance between any schools having such a pupil- is excessive, such pupils may be instructed in regular classes with Superintendent of Public Instruction approval. Special education aide & teacher must be provided.	SPI			X		
S 6751.1	Maximum class size: (a) For special day classes: 12 (exceptions possible)		X				
	(b) For learning disability groups: 32, However participation may not exceed 8 at one time & shall be at least for 30 minutes. The instruction provided by a full-time teacher(or 2 part-time) shall result in not more than 8 units of average daily attendance being credited as a result of such instruction.		X				
S 6751.5	The governing board of a school district may provide for instruction of such educationally handicapped pupils, who reside in all regularly established nonprofit, tax-exempt, licensed children's institutions in the district. A pupil who is unable to function in a school setting who does not attend school receives instruction at the appropriate grade level in the institution, or a pupil residing in the institution & who is able to function in a school setting receives instruction in public school facilitied at the appropriate grade level.	Sch. Dist Gov. Bd.				X	
	The governing board may contact with the county superintendent schools for such programs.	Gov. Bd.				X	
S 6752	Only 2% of district's total enrollment may enroll in Special Education for educationally handicapped, except as permitted by special authorization of the Superintendent of Public Instruction.	SPI			X

Statutes §10-4b (1969)	Whenever the state board finds that a board of education of any school district has failed to make reasonable provision to implement the educational interests of the state, the state board will conduct an inquiry to identify the cause of the failure and will determine what recommendations should be made as to remedies to be pursued by the responsible state or local agencies. In conducting the inquiries the state board of education will give the board of education involved the opportunity to be heard. The state board has full subpoeana power in these proceedings.	st. bd. of ed.			X		
Position Paper, Interpretation of §10-4a, b, The Educational Interest of the State, St. Dept. of Education 1969	The state board of education, in acting on recommendations resulting from an inquiry under §10-4b, could remove the high school from the approved list and take appropriate action to require the town to provide secondary education at an accredited secondary school at the town's expense.	st. bd. of ed.			X		
	With an adverse recommendation, the state board of education should identify the deficiencies in the educational offerings of the school district, advise as to the means of over-coming the defects, and warn the local board of education that it will challenge its claim for general state aid for having maintained schools according to law.	st. bd. of ed.				X	
§10-4(b) (1949, 1957, 1965, 1969, 1971)	The state board of education will submit to the governor and to the general assembly a detailed statement of the activities of the board and an account of the condition of the public schools and of the amount and quality of the public instruction provided there. Other information which will assess the true condition, progress and needs of public education will also be provided.	st. bd. of ed. governor general assembly	X		 X

Compensatory Education for Disadvantaged — Connecticut

Source Cite Date	Substantive Description of Requirement	Agency Level & Name	Responsibility of Agency M	A	S&M	D	Sanctions for Non-Compliance
§10-266a 1967	Any town or regional school district will be eligible to receive grants to assist in furnishing special educational programs designed to improve or accelerate the education of children whose educational achievement has been or is being restricted by economic, social or environmental disadvantages, provided that these programs will be designed primarily to meet the educational needs of educationally deprived children.	Town or Reg. Sch Distr.				X	
	These programs will be approved by the state board of education.	St. Bd. of Ed.			X		
	Educationally deprived children means children of families with annual incomes of less than $4000 or of children receiving state aid for dependent children.						
	Any town or regular school district applying for such a grant will show that any funds so received are to be used for providing special education opportunities; such as pre-kindergarten education, remedial programs, work-study programs, reduced class-size, school library collections,	Town or Reg. Sch Distr.	X				
	special tutoring programs for school dropouts and innovations approved by the state board of education.	St. Bd. of Ed.			X		
§10-266b 1967	The total amount to which any regional or town school district is entitled will not exceed the amount determined by multiplying $10 million by the average percentage of the families in the community with incomes under $4,000 to the total number of those families in the state.						
§10-266c 1965	Applications for grants will be made to the state board of education in such form and at such time as the board may designate.	St. Bd. of Ed.			X		
§10-266d 1965	The state board of education will periodically review and audit grant payments authorized to town or regular school districts in order to determine that state funds are being used for the purposes specified in the application.	St. Bd. of Ed.	X				
	If the state finds that these state funds are not being used for other purposes or are being used to decrease the local share of the support of schools, the board may require the repayment of funds to the state.	St. Bd. of Ed.				X	X
§10-266e 1967	The state board of education will furnish assistance to the towns in planning and developing these programs and will provide guidelines to the towns for the determination of programs eligible for approval for grants.	St. Bd. of Ed.	X	X			
§10-266f 1969, 1972	Any town or regional school district which graduates high school students may apply to the state board of education for a grant to be determined as follows; the product of the amount appropriated under this section times the percentage of high school students in the district.

	The board may make regulations controlling the admission of students to any such school. It may enter into arrangements with schools in which pupils may have opportunity to obtain practice.	St. Bd. of Ed.				X	
§10-96 1971	The state board of education will establish standards under which it will approve town-operated vocational schools and industrial arts programs in jr. high schools or high schools and prescribe the regulations under which towns will receive grants-in-aid for these approved schools or for the industrial arts programs.	St. Bd. of Ed.	X				
§10-97 1967, 1969	The board of education of any town or any regional school district will provide the reasonable and necessary transportation of any student under 21 who resides in the town with his parent or guardian and who attends a state approved vocational school.	Bd. of Ed. of any town or regional sch. distr.	X				
	If the cost of the out-of-town transportation exceeds $200 per year, the board of education may elect to maintain the student in the town where he attends school, in which case, the reimbursement for transportation will go to maintaining the student. In no case will a town or regional school district board of education be required to expend for transportation or maintenance more than $400 per pupil per year.	Bd. of Ed. (local)				X	
	Where transportation is provided solely within the town of residence, the board of education will be reimbursed by the state board of education for 50% of the cost of the transportation not to exceed an average of $20 per pupil annually.	Local Bd. of Ed.					
	The state board also pays 50% of the cost for transportating vocational school pupils out of town, not to exceed $200 per pupil.	St. Bd. of Ed.	X				
	Application for reimbursement will be made by the local board to the state board.	St. Bd. of Ed.	X				
	The parent or guardian of a student or any veteran over 21 who is denied the reasonable and necessary transportation may appeal under 10-186.	St. Bd. of Ed.			X		
§10-98a 1969, 1971	There will be an interim commission to study and recommend means of providing greater opportunity for students who will not attend college especially to reach students not able to benefit from the present system of state vocational technical schools or the present vocational programs of the high schools. The committee will consist of 15 members, 8 from positions in the state legislation and 7 appointed by the governor. The commission will enlist the cooperation of all state and federal agencies in providing greater opportunities in vocational education and counseling.	Interim Comm.		X			
§10-100 1967, 1969	Vocational rehabilitation definitions: "rehabilitation facility"-operated for the primary purpose of providing vocational rehabilitation services for handicapped individuals or for providing evaluation and work adjustment services for disadvantaged individuals, and which provides one or more of the following services: 1) comprehensive rehabilitation services; 2) pre-vocational

	conditioning; 3) physical and occupational therapy; 4) speech and hearing pathology; 5) psychological and social services; 6) evaluation; 7) personal and work adjustment; 8) vocational training; 9) control of special disabilities; 10) transitional or long-term employment for those severely handicapped who can't be readily absorbed into the competitive labor market. "disadvantaged individuals" - a handicapped person; an individual disadvantaged by reason of youth or advanced age, low educational attainments, ethnic, cultural, delinquency factors or anything a barrier to employment. "evaluation and work adjustment services" include 1) a preliminary diagnostic study; 2) a thorough diagnostic study consisting of an evaluation of all factors which would bear on individual's handicap to employment & rehabilitation potential; 3) services to appraise the individual's patterns of work behavior and ability to acquire occupational skills; 4) outreach, referral and advocacy; 5) the administration of these services.						
§10-101 1949	The state board will maintain a vocational rehabilitation division which will administer the programs under this section.	St. Bd. of Ed.	X				
§10-102 1967, 1969	Vocational rehabilitation services are available to any handicapped individual and to his families when the services will contribute substantially to their rehabilitation. Those eligible are those 1) whose vocational rehabilitation the state board after full investigation will be satisfactorily achieved or for whom the need for service to determine the individual's potential has been established or 2) who is eligible under the terms of an agreement with another state or the federal government.	St. Bd. of Ed.			X		
	Evaluation and work and adjustment services will be provided directly or through public or private instrumentalities to any disadvantaged individual who has an employment handicap. These services are provided at public cost.						
	If vocational rehabilitation services or evaluation and work adjustment services cannot be provided for all eligible handicapped individuals, the state board of education will determine the priority of selection.	St. Bd. of Ed.	X			X	
§10-103 1969	The state board of education will cooperate with other departments, agencies and institutions in providing for the vocational rehabilitation of handicapped individuals, in studying the problems involved and in developing and providing those programs, facilities and services as it deems necessary or desirable.	St. Bd. of Ed.	X

Handbook for Secondary Schools pp. D-7-D-8	The Delaware State Department of Public Instruction has not historically demanded or exercised rigid control with respect to the establishment of standards for the secondary schools. Since 1959, however, there has been the implementation of a TEAM APPROACH to the evaluation of the secondary schools through visitation procedures and the use of appropriate and meaningful evaluation guidelines by professional personnel representing the State Department of Public Instruction. Evaluation by the Department of Public Instruction does not represent official accreditation. It provides for the approval of each secondary school in order that more official procedures for accreditation may be undertaken by the Visitation Committee of the Middle States Association of Colleges and Secondary Schools. The evaluation is initiated through the cooperative efforts of the school principal and the State Director of Secondary Education. The report of the evaluation is forwarded to the principal to serve as a guide in examining and re-studying the overall school situation and in seeking the general improvement of instruction. The evaluation approach is not supervisory in the sense that members of the evaluation team confer immediately with teachers and make recommendations or provide reports as to the status of teachers and their effectiveness. It does present certain features of a supervisory nature in that provisions for follow-up are arranged wherein State Department staff members are available to assist the principal and teachers to implement changes in the school resulting from the evaluation study. The fundamental intent of the State Department of Public Instruction visitation and evaluation is to provide a report as to the overall view of the entire school situation in a short period of time. As the result of carefully planned and concentrated observations, the principal can be provided with information to proceed with such modifications and supervisory techniques as necessary to improve the educational program and the learning situation.						
Handbook for Elem. Schl. p. 56	The SBE has approved a procedure by which the SDPI will assist districts with a "Cooperative Process Evaluation of Delaware Elementary Schools." Up to 6 districts will be involved in this procedure each year. This will result in a complete evaluation of all district, elementary education programs once every 4 years.

C Art. VIII Sec. I	All taxes shall be uniform upon the same class of subjects within the territorial limits of the authority levying the tax, and shall be levied and collected under general laws, but the General Assembly may by general laws exempt such property from taxation as in the opinion of the General Assembly will best promote the public welfare.	General Assembly	X			X	
S 1902	Any district may, in addition to the amount apportioned to it by the State Board or approprtated to it by the General Assembly, levy and collect additional taxes for school purposes upon the assessed value of real estate as determined for county tax purposes.	Local Board				X	
	In any instance, except major capital improvements and new funds for Educational Advancement (chapter 17 below), where the state shall make appropriations to school districts contingent upon a local contribution or allocation, the local board may levy a tax to raise the amount of such a local share without a referendum. In the case of Willimington Delaware, such a tax may be levied in spite of statutory maximum tax rates.	Local Board Willimington Board of Pub. Education				X X	—
S 1903	Before a local board levies a tax under §1902(a) it shall determine whether such tax shall be based on a specified amount or a specified rate of taxation.	Local Board	X				
S 1904-1911	Provides provisions for an election to authorize additional taxes. Such taxes must, except in the case mentioned above, be authorized by a majority of those voting.	Voters Local Board	 X			X	
S 1912	A district school board may levy a capitation tax on all persons over 18 residing in the district such a tax must similarly be approved by the voters.	Local Bds. voters	X			X X	
S 1919	Money shall be expended only for the purpose for which it was raised.	Local Board	X				
S 1923	Districts may borrow in anticipation of tax receipts up to 25% for a period of up to 90 days. Such short term borrowing shall not be included in the bonded indebtedness of a district.	Local Boards				X	
S 1930-1935	Provides for levies on mobile homes under the same conditions as stationary homes.	Local Board	X				
S 7129	See Libraries						
S 2601	See Vocational Education						
S 2119	The Board of Education of any distrist which has issued bonds under any former school law shall levy taxes sufficient to pay interest and principal.	Local Boards	X

S 229.57	The Commissioner of Education is directed to implement a program of educational accountability for the operation and management of public schools which shall include the following:	Commissioner of Education	X				
	1) The Commissioner with the approval of the Board of Education shall establish specific basic uniform statewide educational objectives for each grade level and subject area;	Commissioner of Education				X with Bd. Approval	
	2) The Commissioner shall develop and administer a uniform statewide system of assessment to determine periodically pupil status, pupil progress, and the degree of achievement of educational objectives;	Commissioner of Education	X				
	3) The Commissioner shall make an annual report covering an assessment of each district and recommendations;	Commissioner	X				
	4) By 1973-1974 each district shall make such a report.	School Board	X				
	5) The Commissioner, with the approval of the Board, shall by 1973-1974 develop accreditation standards based upon the attainment of the established educational objectives.	Commissioner				X with Bd. Approval	
S 230.2405	No accreditation association shall use a standard which prescribes an educational qualification of a superintendent who holds a bachelor's degree and denies accreditation to the district school because of the superintendent's lack of qualifications.						
Elementary and Secondary Standards 1971	This 250 page set of regulations is extremely detailed and comprehensive with requirements in many fields including administrative personnel, instruction, services and school plant. There exist a separate compilation of standards for the school district office, over-all program, elementary schools, middle schools and high schools. Provisions are listed under the specific areas covered.						
Section 1 p. VI - VII	There are three types standards included in the accreditation document 1) status - quantitative or observable requirements. answerable in "yes", "no" terms. 2) process - staff action in implementing educational program. 3) product - student performance. Compliance is reported in terms of % of students meeting requirements. All schools within a district shall conduct a self-evaluation employing 2 of the 3 types of standards. Accreditation classification shall consist only of "accredited" and "non accredited." The accreditation process involves a visit from an individual in the Department of Education. There are three levels of standards: level 1 - basis indispensible essentials of the school program. Nearly all standards in the category must be met

Objectives

FLORIDA

Source Cite Date	Substantive Description of Requirement	Agency Level & Name	Responsibility of Agency M	A	S&M	D	Sanctions for Non-Compliance
S 228.01	It is the purpose of the state plan for public education to ensure the establishment of a state system of schools, courses, classes, institutions and services adequate to meet the educational needs of all citizens of the state.						
S 228.04	This state system of public education shall include the uniform system of free public schools as established and which shall be liberally maintained.						
S 228.002	The purpose of the Florida School Code is the establishment, maintenance and support of public education in the State and the provision thereof shall be liberally construed to the end that its objects may be effected. It is declared to be the legislative intent that if any section, subsection, sentence, clause or provision of the school code is held invalid the remainder of the code shall not be affected.						
S 229.57	See Accreditation						
S 229.053(2a)	The State Board shall adopt comprehensive educational objectives for public education.						
S CSHB 734	The intent of the legislature is to guarantee to each student in the Florida public schools the availability of programs and services appropriate to his educational needs, which are substantially equal to those available to any similar student, notwithstanding geographic differences and varying local economic factors. In addition, the legislature has the intention of increasing the authority and responsibility of districts for deciding matters of instructional organization and method and to encourage district initiative in seeking more effective and efficient means of the various programs and to assume a greater share of the responsibility for state funding of school construction by providing a systematic plan whereby each district will be able to meet the increasing needs for satisfactory school facilities for all students, and to maximize the availability of satisfactory student stations to meet the current and projected needs of the districts and to remove the necessity of involuntary multiple sessions.						
ESS 1971 9.5 - 9.9	The 250 pages of accreditation standards is arranged in a format which list specific goals followed by the requirements designed to ensure achievement of the listed goals. The accreditation standards contain several hundred of these specific goals.	school board		•

1973 Standards for Ga. Schools	Georgia's accreditation system is based on a set of 22 standards such as services for exceptional children, school maintenance, teaching staff, etc. Each of these standards has a set of requirements, i.e. those that are legislatively mandated or those that are SBE regulations. Each of these standards also has a set of recommendations. A local school must comply with a certain number of these recommendations before it will be accredited. See 1973 Standards for Public Schools of Georgia for more detailed information and the requirements and recommendations for each standard.	SBE	X

	C - Constitution S - Statute Rule. A statement of policy which has the force and effect of law; provided that it has been promulgated in accordance with law. Generally, rules encompass matters that implement, interpret, prescribe law or policy, describe the organization, procedure, or practice requirements of the Department of Education. They do not include matters that concern only with the internal management of the department and not affecting private rights of or procedures available to an individual. Policy. A guiding statement of the department relating to matters of internal management. A policy is promulgated by the Board of Education and can be amended or changed only by its action. A policy does not have the force and effect of law. It merely reflects the Board's feelings and desires in the conduct and affairs of the department. However, any educational officer, teacher or employee who does not comply with said policy shall be subject to disciplinary action. Administrative Regulation. A statement that provides internal guidance and direction in the implementation and application of either a rule, or a policy. Regulations are promulgated by the Superintendent and his staff. They may be subject to change at any time as the need arises. Regulations shall be compatible with the legal references, rules, and policies.

S 37-63	It is the purpose of this part to establish a comprehensive system for state program and financial management and finance the programs of the state. The system shall include procedures for: 1) the orderly establishment, continuing review and periodic revision of the state program and financial objectives and policies; 2) the development co-ordination and review of long-range program and financial plans that will implement established state objectives and policies. 3) the preparation, coordination and analysis, and enactment of a budget organized to focus on State programs and their costs; 4) the evaluation of alternatives to existing objectives, policies, plans and procedures that offer potential for more efficient and effectives use of state resources; 5) the regular appraisal and reporting of program performance.						
S 37-64	The system shall be governed by the following general principles: 1) planning, programming, budgeting, evaluation, appraisal and reporting shall be by programs grouped by objectives, regardless of their placements in the state or agency organizational structure. 2) the state program structure shall be such as will enable meaningful decisions to be made by the Governor and the legislature at all levels of structure. At its lowest level, it shall display those program elements or program sub-elements, which are the simplest units of activities, each unit producing a specific, identifiable result, about which resource allocation decisions are to be made by the Governor and the Legislature. 3) a program which serves two or more objectives shall be placed in the program structure along with that objective which it primarily serves; where desirable, it shall also be placed with other objectives, but as a non-add item. 4) the full cost shall be identified for all programs regardless of the source of funding; costs shall be displayed in the year of their anticipated expenditure, regardless of whether such costs have been authorized to expended by prior appropriations acts or are authorized to be expended by existing law or require new appropriations or authorizations; 5) objectives shall be stated for every level of state program structure; 6) the effectiveness of programs in attaining objectives shall be assessed; 7) planning shall have a long-range view;

	8) systematic analysis in terms of problems, objectives, alternatives, costs, effectiveness, benefits, risks and uncertainties shall constitute the core of program planning.						
S 37-65	The Governor shall direct the preparation and administration of state programs, programs and financial plans and budget. He shall evaluate the long-range program plans, and budget. He shall evaluate the long-range program plans, requested budgets and alternatives to state objectives and programs, and recommend to the Legislature the States long-range plans and a 6 year state program, financial plan and budget.	Governor	X	X		X	
S 37-69	The Governor shall prepare a state six year program and financial plan, encompassing all state programs. The program and financial plan shall be annually and continually updated and maintained, and copies of the current plan shall be transmitted to the Legislature and to each member thereof, not less than 20 days prior to the covening of each regular session. The program and financial plan shall, in general contain: 1) state program structure; 2) statements of objectives; 3) program plans which describe the programs recommended to implement the statewide and program objectives and all manner in which programs are to be implemental over the next 6 years; 4) a financial plan which shows the fiscal implications of the recommended programs. rule 29	General Rule: At the end of each school year, students making normal progress shall be promoted to the succeeding grade. Other pupils may be accelerated or retained in the same grade. Promotion in the Elementary School: No child should stay in the same grade more than 2 years, nor should he repeat more than twice during his elementary school experience. Promotion in the Secondary School: Promotion is to be on the basis of the pupils performance in relation to his ability. 1) Regular promotion is expected and considered normal. 2) To achieve promotion in grades 7 and 8 students must earn 4 or more units of work each year. 3) To achieve promotion in grades 9-11, students must earn 4 or more units each year.

Statute 33-201 (1963)	The services of the public schools of this state are extended to any acceptable person of school age. School Age is defined as including all residents of the state between 6 and 21 years. The age of 6 shall be obtained when the sixth birthday occurs before October 16.						
33-202 (1963)	The parent or guardian of a child between 7-16 will cause the child to be instructed in courses commonly and usually taught in the public schools. Unless the child is comparably instructed to be determined by the board of trustees of the school district. The child must attend school for as long as the public schools are in session.	Parents or Guardian	X				33-207: proceedings may be brought against parent or guardia under youth rehab litation law (1963)
33-203 (1963)	Notice of the above section will be given to parents by the county auditor in newspapers in August in daily and weekly issues.	County auditor	X				
33-204 (1963)	When a doctor or psychiatrist states in writing to the board of trustees of a school district that the child's phys. mental or emotional condition does not permit his attendance of school and a petition is filed with the board by the parent or guardian, the board of trustees may grant the requested exemption.	Bd. of trustees of School District				X	
33-205 (1963, 1973)	The board of trustees may deny attendance by suspension or exclusion to a habitual truant, to one who is incorrigible or whose conduct is disruptive of school discipline or instructional effectiveness of school, or detrimental to health and safety of other pupils. Readmission of an expelled pupil shall not prevent the board from again expelling him. The pupil has the right to a hearing and notice of the charges against him. An expelled pupil comes under the youth rehabilitation law.	Board of Trustees				X	
Murphy v. Pocatello Schl. Dist. No. 25 (1971) 44 Idaho 32; 480 Pac 2d 878	(A regulation requiring that high school students keep their hair length "off the eyes, off the ear and off the collar was held unconstitutional. No. subst. health; safety, academic or disciplinary problem created by long hair)						
VIII, C.17 Secondary schl. stand. (1970)	Student will not be given credit in a subject if he is not in attendance at least 85% of the days school is in session except in extraordinary cases.	St. Bd. of Ed. (Policy 107. 3. 3.)	X				
Standards for Elem. Schls. (1962)	Entrance into first grade may be delayed until age 7 at which time attendance is required.

33-1209 (1963) See Certification	The chief certification officer of the state board of education has the power to institute proceeding against the holder 5 years a written complaint for the reasons in 33-1208. After an informal hearing at which the teacher may be present with an attorney, the decision will be made by the State Board of Education. A teacher may get a write of review in the courts.	St. Bd. Fed.				X	
33-1210 (1963)	The certificate will be suspended if the holder has been found guilty of crimes in 18-6101, 18-6600, 18-6605 and 18-6607.	St. Bd. of Ed.	X				
33-1212 (1963-1973)	During the third year of continuous employment in the same school district, each certified employee will be evaluated for a revewable contract and having been given a contract for the fourth year, be placed upon a renewable contract status until age 65. The right to automatic renewal depends on the certified employee giving notice of his intention to accept the renewal. Before a Board of Trustees can determine not to renew the contract of someone on an automatic renewal basis, the employee will be entitled to a probationary period.						
33-1216. 7 (1963, 1973)	Every certified employee who has received a notice that the Board of Trustees intends to terminate his contract is entitled to a hearing of the Board of Trustees where he may examine the evidence against him. This also applies to reduction of salary.	Certified employee	X				
33-1216. 7 (1963, 1973)	Employees of any school district, certified or non-certified, are entitled to sick leave of a day a month. The Board may grant a years leave of absence with pay to an employees who works with a professional educational organization. Termination of employment terminates accumulated sick leave.	Bd. of Trustees Bd. of Trustees	X X			X	
33-1224 (1963)	Any teacher employed by a school district has the duty to direct his pupils and the way a pupil should act in his class. The teacher may maintain discipline in any reasonable way; and has the duty of carrying out the board of trustees' regulations on discipline.	Teacher Bd. of Trustees	 X			X	
331252 (1969)	A professional standards commission is created consisting of 15 members, 5 of whom are certified teachers, 1 from the department of education, 1 from department of vocational education.	Pro. Standards Commission	X				
1254 (1969)	The commission has the authority to adopt recognized professional codes; standards of ethics applicable to teachers of the state, upon approval by the State Board of Education.	Commission				X	
1255 (1969)	The commission may hold hearings on any allegation of unethical or incompetent practice by a teacher. A teacher has procedural rights during the hearing.	Commission					
1256, 7 (1969)	The commission submits its findings to the State Board of Education, which has the ultimate authority to take action. The commission may also make recommendations to the State Board to improve teaching in areas such as education, certification and teaching standards	St. Bd. of Ed.				X

			Responsibility of Agency				
33-1501 (1963, 1970)	To afford more equal opportunity for public school attendance, the board of trustees of each district will, where practicable, provide transportation for the public; private school pupils within the district. The board of trustees must observe the primary requirements of safety and adequate protection of the health of the pupils. Nothing prevents the board from denying a pupil transportation for good cause in writing to his parents. No board of trustees is required to provide transportation for any pupil living less that 1-1/2 miles from the nearest school. To effectivate this public policy, the board of trustees may purchase, lease, maintain, operate buses; enter into contracts or make payments to parents; guardians when transportation is not furnished by the district. NOTE: This statute is unconstitutional to the extent that it permits transportation for parochial students and the use of public funds for that purpose Epeldi v. Engleking 488 P. 2d 860, 94 Idaho 360 (1971)	Bd. of Trustees	X			X X	
33-1502 (1963)	The board of trustees may establish and alter bus routes and non-transportation zones. Routes will be so established, wherever practicable, so that no student will live more than 1-1/2 miles from a bus stop.	Bd. of Trustees				X	
33-1503 (1963)	Whenever any pupil lives more than 1-1/2 miles from any established bus stop, the board may at its discretion pay to the parent or guardian an amount not exceeding the the maximum set by the state board of education for transporting the pupil to the school or bus stop. Whenever the board of trustees decides that a pupil residing within the non-transportation zone cannot be transported, it may pay to the parent or guardian the cost of board and lodging.	Bd. of Trustees				X	
33-1505, 5	A school bus has 9 or more passengers; a motor vehicle has 8 or less. All school buses must conform to the standards of construction set by the state board of education. Any person who sells a bus does so with a warranty that the bus meets these standards.	State Bd. of Ed.	X				
33-1506, 7, 8 (1963)	All school buses must at all time conform to standards prescribed by the state board of education. Before any bus is used, and prior to each school year, the bus will be inspected by the state department of law enforcement. At intervals of 60 days the board of trustees will cause inspections to be made of all the buses. The board will have liability insurance for each bus used in amounts not lower than the minimum set by the state board of education. The bus will at all times be operated in conformity with rules; regulations of the Department of Law Enforcement.	State Bd. of Ed. State Dept. of Law Enforcement Board of Trustees	X X X				
33-1509 (1963)	The chauffeur, or bus driver, is employed by the board of trustees under written contract, he must be 18, of good moral character and free from narcotics addition. He must maintain route books; records required by the board of trustees and the state board of education.	Bd. of Trustees	X				
33-1511 (1963)	The State Board of Education has the power to: designate a supervisor of school transportation; adopt minimum standards for the construction of school buses.	St. Bd. of Ed.		X

			M	A	S&M	D	Sanctions for Non-Compliance
§33-801 (1963, 1973)	Thirty days before its annual meeting the board of trustees of each school district prepares a budget for the school year.	Bd. of Trustees	X				
§33-802 (1963, 1970, 1973)	Any tax levied for school purposes is a lien on the property against which the tax is levied. The board of trustees determines the tax levies, which are not to exceed 27 mills. No levy for the lawful expense of maintaining and operating the school will exceed 27 mills unless approved by a majority of district voters. All charter districts must reduce their levies by 3 mills from 1972-1973.	Bd. of Trustees	X				
§33-803 (1963)	In any school district in which a farm labor camp with the children of migrantory workers housed therein exists, the board of trustees may make an additional levy of 5 mills. Whenever the total levy exceeds 30 mills, it must be approved by the school district electors at a tax levy election.	Bd. of Trustees School District Electors				X	
§33-804 (1963, 1969)	In any school district in which a school plant facilities reserve fund has been created, the board of trustees submits to the school electors of the district the question of a levy not to exceed 15 mills per year for a period of up to 10 years.	Bd. of Trustees	X				
§33-805 (1963, 1971)	Before Sept. of each year the board of trustees may request to the board of city commissioners an emergency fund levy. The board of trustees computes the number of pupils in average daily attendance and if this figure is greater than last year's the board (1) divides the total of the foundation program allowance by the pupils in average daily attendance; (2) multiply the quotient by the additional pupils in ADA. After receiving the amounts, the board of city commissioners determines the levy and credits it to the general fund of the district.	Bd. of Trustees Bd. of County Com'rs.					
§33-806 (1963, 1965)	The board of trustees may request the board of county commissioners to make a county school special assistance levy, not to exceed 3 mills. No levy is authorized except upon certification by the board of trustees that the assessed valuation of property in the school district was less than $2,500 per pupil in ADA and that the board of trustees has certified the legal maximum for the preceding year. If there are more than one district, the proceeds are apportioned among all petitioning districts in the ratio that ADA of each bears to the aggregate ADA of all petitioning districts for the next preceding year.	Bd. of Trustees				X	
	In counties with an elementary school district, the trustees may request no later than July a special assistance levy from the board of county commissioners provided they have an operation levy of 28 mills. the board of county commissioners may fix a levy of at least 3 mills and apportion the proceeds as above.	Bd. of Trustees of Elem. School District Bd. of County Com'rs.					
§33-1102	Bonds may be issued to acquire, purchase or improve school sites; to build schoolhouses; to demolish, repair or furnish school buildings, or to purchase school buses.	Bd. of Trustees				X

§33-1103 dist.	The board of trustees may submit to the qualified school district electors the question as to whether the board may issue a bond. A school district which maintains an elementary and a secondary school may issue bonds not to exceed 20% of the assessed valuation of taxable property in the district less the aggregate outstanding indebtedness; no other school district can issue bonds to exceed 10% of the assessed valuation.	Bd. of Trustees School Districts	 X			X 	
	The question is approved only if the percent of votes cast in favor is that which is/or may be, set by the Constitution of Idaho. Issuance takes place at any time within two years of the election.						
§33-1105	Approval of a proposed bond issue is needed by the board of county commissioners when 50% of the property in the district is owned by non-resident persons or corporations. It may reduce or approve the amount proposed, though not increase it.	Bd. of County Com'rs.				X	
33-1107 (1963, 1972)	School district bonds are issued in denominations of $100 or multiples, not to exceed $5000. They are issued on amortization plans, redeemable within 20 years from the date of the bonds. The plan and forms of the bonding may be departed from whenever in the judgment of the board of trustees such departure will result to the benefit and the advantage of the school district.	Bd. of Trustees				X	
§33-1110 (1963, 1969)	Immediately following approval of the board issue, the department of Finance will have a preferential right to purchase all or part of the board's issue. If it buys less than all, bonds will be sold by the board of trustees by giving notice in a state newspaper for 4 consec. weeks.	Bd. of Trustees					
§33-1115 (1963)	The faith of each district is pledged for the payment of interest and redemption of principal on all bonds lawfully and validly issued.	Sch. Dist.					
§33-1116 33-1121 (1965)	The board of trustees may, without electoral approval, issue coupon bonds to refund any outstanding bonded indebtedness of the district if it can be done with profit; without creating further liability. The board may also issue advance refunding bonds without electoral approval when the cost of the refunding bonds is no more than the cost of the bonds to be refunded.	Bd. of Trustees

Regulations Recommendations for school building planning (1972)	NOTE: Extensive and detailed provision is made for the size of equipment, furniture, classroom space, doors, ramps, stairways, windows, laboratory rooms, art and music areas, vocational agriculture facilities, auditoriums and stages, gyms, the cafeteria and out of school facilities. Many standards expressly conform to those of the American Standards Association. Facilities of the elementary and secondary schools are described separately and with specificity. These specifications are enforceable to the extent that the State Board of Education, which devised these regulations, must first approve the working drawings (see 1-100) before the architect may begin his supervision of instruction.

The Illinois Program for Evaluation, Supervision and Recognition of Schools. Superintendent of Public Instruction (1973)	(2-1)	The Office of Superintendent of Public Instruction is charged with evaluating schools on the basis of minimum standards.	sup. of publ. instr.			X		
	(2-2)	Each school will be periodically visited for purposes of recognition.						
	(2-3)	The Office of Superintendent of Public Instruction will determine how the education program is meeting the specified objectives of the school and of the state.	sup. of pub. inst.			X		
	(2-4)	As part of the recognition standards a school district must file a written program plan with the superintendent of public instruction.	school dist.	X				
	(2-5)	There are three types of recognition status: full recognition, probationary recognition, and nonrecognition.						
	2-5.1	Full recognition is granted to a school district or attendance center which has undergone an on-site evaluation by the office of superintendent of public instruction that it 1) meets the basic fundamental standards required in all elementary and secondary schools and 2) has completed the development of a written program plan.	sup. of publ. inst.			X		
	2-5.2	Probationary recognition is granted to a school district or attendance center which has not met the minimum standards to the extent that it is failing to maintain an adequate educational program. It is a warning that the school must make certain improvements. In essence, a school district will be given probationary recognition when 1) it does not submit an acceptable program plan or 2) does not meet basic standards as determined by an on-site evaluation.						
	2-5.3	Nonrecognition is given to a school district which fails to submit a program plan, meet legal requirements, or give evidence of meeting minimum standards. Any such school district will not be eligible to file a claim upon the common school fund or collect tuition from another school district. A school district which for 2 consecutive years fails to maintain recognized school is automatically dissolved.	school dist.	X

Rules Establishing Requirements for the Prevention and Elimination of Racial Segregation in Schools. State Supt. of Public Instruction (1971)	**Definition** Equal educational opportunity -- educational opportunities of the highest quality and diversity, organized to promote understanding across cultural lines, made available to all persons in our society according to need.						
	Procedures 1.1 Each and every school authority will adopt and maintain pupil assignment practices, and faculty and staff hiring and assignment policies, that will eliminate and prevent segregation in schools because of color, race or nationality.	school authority	X				
	4.1 Any school authority receiving notification of non-compliance with the requirements of these rules will prepare a comprehensive plan to correct the specified deficiencies.	school authority				X	
	4.3 Upon receipt of a notification of non-compliance a school authority may request in writing that the office of superintendent of public instruction furnish technical assistance of an informational and advisory nature.						
	5.1 Within 90 days following the receipt of a notification of non-compliance, the school authority will submit to the superintendent of public instruction a plan to achieve compliance.	school authority supt. of pub. inst.	X		X

Rules Establishing Requirements for the Prevention of Racial Segregation in Schools. State Supt. of Public Instruction (1971)	5.3 All plans will include specific affirmative proposals to insure that the integration process provides an effective learning environment based upon mutual cultural and personal respect.						
	6.4 The superintendent of public instruction reviews the plans submitted by the school authorities. If he finds that the school authority has failed to comply with the requirements within 180 days, he will submit his own plan or give the school authority another 60 days.	supt. of pub. inst			X		
	7.1 Upon a finding by the superintendent that the school authority has failed to comply with the requirements of the rules, the state superintendent notifies the district that it will continue in a status of non-recognition (NR) until the superintendent determines that compliance has been achieved. Federal funds may also be denied the district, a court order against the district may also be sought against the district.	st. supt.	X		X

R Standards for Educational Media Programs in Illinois. Supt. of Public Instruction	Standards for media programs -- three phases: Phase I -- should be both practical and achievable by every school system within the state. Phase II -- normal growth beyond Phase I. Phase III -- the rational standard.						

Category	Phase I
Professional	
K-8	One full-time certified teacher with library science for each 500 students; below 400 students, one 1/2-time teacher.
9-12	One full-time personnel per 600 students.
Expenditures	
K-12	A total from all sources of 1% of the state average per pupil instructional costs.
Space & Seating	
K-12	Seating for 10% of the student enrollment at 40 sq.ft. per student, plus 2500 ft. for the basic functions. 30% of that seating in independent study carrels.
Books	3000 titles or 6 volumes per pupil, whichever is greater.
Professional Books	3 current professional titles per teacher districtwide.
Reference	at least 2 encyclopedias.
Magazines	
K-6	10-24 titles
7-9	10-24 titles
9-12	60-99 titles
K-12	necessary magazine indexes and duplication of titles and indexes as required.
Professional	10-14 professional titles
Newspapers	
K-8	1-2 titles
9-12	3-4 titles
Filmstrips	
K-8	200 titles or 1/2 print per pupil, whichever is greater.

	Credit definition for night school classes, see Adult Education in this compilation.						
Administrative Handbook (AH) §73.03.2	As Indiana schools develop programs to meet the needs of a diverse student population, options providing flexibility to arrange time, space, people and materials in a variety of ways are needed. The following definitions are offered as an alternative to the standards outlined in Rules G-1 and G-3 for granting high school credit:						
AH 73.03.2 (1)a	A "course" is an organized one or two semester program offered under a single title for one-half or one unit of credit, respectively.						
(1)b	A "minicourse" is a learning activity of shorter duration than a course which may either be a separate self-contained learning activity or a sub-unit of a course for which distinct goals and objectives are identified. Minicourses are sometimes called learning blocks, units, microcourses, etc.						
AH 73.03.2 (1) c	"Field of Study" is one of the curriculum areas listed in Policy Resolution 73.01-1: Approved Field of Study and Course Titles.						
(1) d	A "unit of credit" is the equivalent of learning experience conventionally provided students during a school year by a minimum of 200 minutes (275 minutes for laboratory fields of study of instructional time per week).						
AH 73.03.2	Credit value of minicourses may be awarded under option A or B. A: Each minicourse shall provide for the instructional equivalent of 0.05 unit of credit or multiple thereof. B: Each minicourse shall provide for the equivalent of 3 weeks of instructional time (1/2 unit of credit) or multiple thereof.						
AH Sec. 2 Ch. 1 Part 2 G-7-02	Overseas study credit may be accepted but is not to count for graduation purposes.	local school	X			X

S 20-6-16	The computation of minimum salary is made each year on the basis of training, experience and degree, completed as of the first day of services. The teachers are entitled to a total of 10 days paid sick leave the first year, and 7 days in each succeeding year. A maximum of 5 days is allowed for death in the immediate family and for which time earnings will still be paid. Paid leave days not used in any one year will be accumulative to a total of 90 days. Upon subsequent employment of a teacher in another school corporation, the accumulated leave will be added for the second and each succeeding year of employment, up to three days of sick leave until the leave days previously earned are exhausted.	school corp.	X				
	Each teacher is further entitled to 2 days for the transaction of personal business and/or the conduct of personal or civic affairs during each year of employment, although a written statement is required to be submitted setting forth the reason and necessity for the cause of absence.	supt. of schools	X				
20-6-16	The school corporation is required to withhold, upon written request from teachers, a portion of the salary for insurance or annuity purposes, where there is more than 20% of the teachers of the school so requesting. For numbers less than 20% the provision is discretionary.	bd. of trustees of school teachers	X			X	
	It is requested that at least thirty minutes free time is allowed in the work schedules of the teachers. Superintendent of Public Instruction reports the alleged violations to the Commission and for persistent violations over a period of a year, the commission will lower the grade of commission or certification of the school(s) in such school system and publish notice of such action in at least one newspaper published within the county.	comm. on gen. ed. bd. of ed. & supt. of publ. inst.			X		X
20-6-20	It is unlawful for any school corporation to dismiss or suspend any employees because of affiliation or activity in any organization provided that such organization does not have as its objective the overthrow, by force and violence, of the government of the United States or the violation of the law.	school corp.	X				
20-6-20	Unless evidence tending to show that the activity has impaired the effective service of the teacher as presented to the board, it is deemed unlawful to dismiss, suspend or enforce a mandatory leave of absence upon a teacher who is a candidate for public office.	school corp.	X				
	Violation of this provision gives the teacher a recourse at law, via injunctions enjoining school corporation from abridgement of his rights and privileges. The privilege of the teacher serving in the general assembly of the states are preserved, during but not limited to the time spent in such service. Credit is given the teacher as if he were teaching.	school corp. teacher school corp.	X X X				X

S-4 (Sec. 2)	The specific procedural aspects of S-4 (Sec. 1) -- i.e., parents -- can object to examination of their child; evaluation to include mental, physical, social, emotional areas. Details therein.						
S-5	The following procedures shall be used in considering handicapped children for enrollment in private in- or out-of-state schools:	dpt. of publ. instr.	X				
	(1) Any child between 6 and 18 years inclusive who is unable to participate in a local public school education program due to the severity of his handicapping condition, and for whom it is not economically possible to establish a special program, shall be eligible for consideration under these provisions.						
	(2) The local school corporation shall obtain a complete evaluation of each child (See S-5, Section 2).	local school corp.	X				
	(3) On the basis of data integrated from the evaluation and upon complete exhaustion of all possible alternatives for programming within the local community or neighboring communities, the local school superintendent shall forward a properly documented recommendation for eligibility of the child and detailed information on a special private facility on Form SE-T to the Division of Special Education, Office of the State Superintendent of Public Instruction.	local supt.		X			
	(4) The Division of Special Education will investigate all alternatives, including those under consideration, and make a final recommendation to the State Superintendent regarding each individual application.	div. of sp. ed.	X				
	(5) Approval is valid for only 1 school year. Details therein.						
	(6) The child becomes ineligible for service under those provisions when it becomes apparent that he can no longer benefit from continued educational treatment service as determined by the Division of Special Education.	div. of sp. ed.			X		
S-5 (Sec. 2)	Specific procedures and details as to S-5 (Sec. 1) requirements.						
S-5 (Sec. 3)	A school corporation having any school-age child receiving the benefits of special education facilities and services under the provisions of these regulations shall report the average daily attendance of such child in the school and grade which they would attend as regular class pupils and shall be entitled to receive regular state tuition support.	school corp. 9.4(257) Governing body of organizations. The membership of the governing body of each organization shall be school administrators, teachers, and elective school officers. Provided, however, that such membership shall include:

9.4(1) School board member. One member who shall be a member of a school board in Iowa, appointed by the Iowa Association of School Boards to represent the lay public.

9.4(2) Activity member. One member, who is either a coach, sponsor or director, of an activity sponsored by the organization to which he is elected and who works directly with the students or the program; this member is to be elected by ballot of the member schools, the vote to be cast by the school's designated representative of the organization involved.

9.5(257) Organization. elections. The election procedure for each organization shall be conducted as provided by their constitution. All criteria for protecting the voters' anonymity and insuring adequate notice of elections shall be maintained in the election procedures. In addition, there shall become representative designated by the state board of public instruction present at the counting of all ballots. That representative shall also validate election results.

9.6(257) Salaries. No renumeration, salary, or remittance shall be made to any member of a governing board of an activity organization for his service thereon.

9.7(257) Expenses. Travel and actual expenses of said governing board members and officers of the board shall be paid from organizational funds only when on official business for the organization. Actual expenses shall be paid for travel within the state, but not more than first class air travel for transportation outside the state, along with other necessary (itemized and reasonable) expenses. Itemized accounting of the travel and business expenses of employees shall be furnished to the department of public instruction in an annual report.

9.8(257) Compensation reported. Full and detailed reports of salaries, expense accounts and fringe benefits paid employees shall be filed with the department of public instruction. All reports of expenditures and amounts paid full-time or part-time employees shall be submitted annually to the state board of public instruction.

9.9(257) Bond. The executive board of each activity organization shall purchase a blanket fidelity bond from a corporate surety approved by it, conditioned upon the faithful performance of the duties of the executive officer, the members of the executive board, and all other employees of the activity organization. Such blanket bond shall be in a penal amount set by the

	executive board and shall be the sum of 50% of the largest amount of moneys on hand in any 30-day period during the preceding fiscal year, and 20% of the net valuation of all assets of the activity organization as of the close of the last fiscal year, but such bond shall in no case be in an amount less than $10,000. 9.10(257) Access to records. Upon request, organizations shall make available to the state department of public instruction or its delegated representative all records, data, written policies, books, accounts, and other materials relating to any or all aspects of their operations. 9.11(257) Appearance before state board. At the request of the state board of public instruction or its executive officer, members of the governing boards and employees of said organizations shall appear before and give full accounting and details on the aforesaid matters to the state board of public instruction. 9.12(257) Eligibility requirements reported. All organizations shall submit to the state board of public instruction for their approval detailed eligibility requirements for students who participate in organizational activities. 9.13(257) Organization policies. The constitution or bylaws of organizations sponsoring contests for participation by approved schools shall reflect the following policies: 9.13(1) "All Star" games. "All Star" games of any type shall not be held. 9.13(2) Team participation. Participation in events shall be by school teams only and not selected individuals, with the exception of individual sports events such as wrestling, track, golf, tennis, etc., and music and speech activities. 9.13(3) Contests outside Iowa. Out-of-state participation shall be limited to regularly scheduled interscholastic activities. Out-of-state participation for students or member schools in other activities must be approved by their respective association or organization. 9.13(4) Promoting interstate contests. No activity organization shall promote or support interstate contests or competition between individuals, teams or groups. 9.13(5) Chaperones. It is the responsibility of all school districts to see that all teams or contestants are properly chaperoned when engaged in interscholastic activities. 9.13(6) Insurance subsidies. No financial subsidies shall be paid to any type of insurance company for participants in any organization. [Filed December 13, 1966]

S 442.1	Statute establishes a state school foundation program. Each district is entitled to a per pupil payment equal to the state foundation base or the district cost per pupil, whichever is less, minus the sum of the per pupil proceeds from the foundation property tax and the miscellaneous district income. All districts are assured at least $200/pupil, regardless of above formula, provided that the districts current total general fund millage has not been reduced by 10% of the millage rate for 1970. In such a case, district receives only that portion of $200 necessary to retain the 10% reduction.						
S 442.2	Each school district shall levy a foundation property tax of 20 mills per dollar of assessed valuation.	local dist	X				ineligibility for benefits under Chapter 442.
S 442.3	The state foundation base for the school year beginning 7/1/72 is 70% of the state cost per pupil. Each succeeding year the base shall rise 19% to a maximum of 80%. The district foundation base is the larger of the state foundation base or the per pupil amount derived from foundation property tax, miscellaneous income and state school foundations aid.						
S 442.5	Miscellaneous income shall include all district general fund revenues, exclusive of federal aid provided under Title 20 Chapter 13 of the U.S. Code; the foundation property tax; foundation aid; guaranteed state aid; additional school district property tax levy; supplemental aid distributed by school budget review committee; any reimbursement under 442.27, and any school district income surtax imposed in the district. Effective 1973 miscellaneous income excludes all federal aid and disbursements.						
S 442.6	District cost shall mean total expenditures for the current year or anticipated expenditures for the budget year of a district payable from the general school fund.						
S 442.7	Allowable growth is to be computed by the comptroller by adding percent of increase for last two years of the most recent three year period for which accurate figures are available, for each of the following revenue sources: 1) adjusted state general fund revenues; 2) adjusted assessed valuations and dividing by 4. Each year the comptroller shall compute the dollar equivalent of the state percent of growth by multiplying the state cost per pupil for the preceeding year by the current state percent of growth. This dollar equivalent is limited to $48 for 1973 and $51 for 1974. Allowable growth shall mean the dollar equivalent of the state percent of growth.	St. Compt.	X

442.8	State cost per pupil is determined by the previous years figure plus allowable growth. If growth is negative then the cost per pupil shall remain at previous years level.						
S 442.9(1)	The state comptroller shall determine the additional school district property tax levy for each school district (beyond the foundation levy) as follows:	State Compt.	X				
	a. The district per pupil cost is derived from past years figure plus allowable growth. If this figure exceeds 110% of the state per pupil cost, then the school budget review committee shall review the budget and establish allowable growth for that district in keeping with 442.7.						
	b. Maximum district cost for each district equals district per pupil cost times enrollment. A district may not exceed its maximum district cost unless additional millage is authorized supplemental state aid is distributed by the school budget review committee or additional funds are reused by a voter approved school district income surtax.						
	c. The total in foundation base finds plus all funds excluded from the miscellaneous income category taken together and subtracted from the lesser of the actual or maximum district cost determines the amount to be raised by the additional sch. district property tax levy, (subject to maximum millage provided in 442.10), any additional millage authorized by the school budget review committee or the maximum millage reduction provided in section 442.21.						
S 442.9(2)	2. Each county auditor shall spread any additional tax levy authorized by the state comptroller over all taxable property in the particular district.		X				
	3. A county or joint county board of education shall not certify for any fiscal year an amount of money to be raised by property tax for the general fund which exceeds the previous year plus the allowable growth factor. The above mentioned boards may however certify and receive money for the expansion of special education programs provided they qualify for reimbursement under Section 281.	Cty. or Joint Cty. Bd. of Educa.	X				
S 442.10	For determining the maximum millage levy in a district, the comptroller shall determine the sum of the foundation tax levy and the additional levy in mills. When this total exceeds the district general fund levy in mills for school year 1970, he shall adjust the district general fund millage levy to the 1970 level, unless additional millage is approved by the school budget review committee. S 442.11	For 1972-1976 the state shall provide guaranteed state aid to any school district in which the maximum millage excluding authorized additional millage, plus districts miscellaneous income and foundation aid does not meet the actual or maximum district cost whichever is less.	St. Dept. of Publ. Instruc.	X				
S 442.12	The School Budget Review Committee shall consist of the Superintendent of Public Instruction, the comptroller and 3 governor-appointed members.	School Budget Rev. Comm.	X				
S 442.13	The committee shall review the budget of any district if the cost per pupil has increased by more than allowable growth.	S. B. R. C.	X				
	The committee may review an actual or proposed district budget if it shows district costs per pupil in excess of the state cost per pupil or if the budget shows the district cost to be unreasonably high in comparison to similar districts with similar cost factors.	S. B. R. C.			re-views	X	district budgets
	The committee may authorize a budget in excess of limitations if a private school closes thus forcing more pupils into public schools within a district or if there exists supplemental state appropriated funds for such a purpose.	S.B. R. C.				X	
	Failure by a district to cooperate with the committee is sufficient grounds for discontinuance of state aid.	local board	X				loss of state aid
S 442.14	If a school board wishes to exceed maximum district cost as determined under 442.9 and the committee has not authorized additional millage or supplemental state aid, the district board shall submit to the voters the question of whether the exceeded budged shall be approved and thereby financed by a district income surtax of a specific rate. If a majority approves the surtax may be imposed by board resolution. If the surtax is disapproved, the board must not exceed its maximum district cost.	local bd.				X	
442.15	The school district income surtax rate is determined by the comptroller based upon the a) excess amount needed and b) the total amount of state individual income tax for district residents. The surtax rate shall equal $\frac{a}{b}$.	State Compt.	X				
442.21	If the state school foundation program causes a reduction in any district, for the year 1972, of more than 10% of the districts total 1970 general fund millage then that reduction shall be limited to 10%. Reductions for 1973 and 1974 are also limited to 10%. If this 10% limitation results in raising more than the district needs for the lesser of its actual or maximum district cost, then the limitation does not apply and the district may reduce its millage up to a point at which it would be entitled to state school foundation aid.

Article 90 72-9001 (1973)	The legislative intent of this act is to provide for a systematic method for improvement of school personnel in their jobs and to improve the educational system of this state.	legis.		X			
72-9003 (1973)	Every board will adopt a written policy of personnel evaluation procedure in accordance with this act and file it with the state board. Every policy adopted will a) be prescribed in writing; b) include evaluation procedures; c) provde that all evaluations will be in writing and remain in the employee file for not less than 3 years; d) provide that an employee will be evaluated twice a year during his first two years; once a year during his thrid and fourth years, and once every 3 years thereafter.	local bd.	X				
72-9004 (1973)	Evaluation policies adopted under this act should meet the following criteria: a) consideration should be given to the following personal qualities: efficiency, deportment, ability, health, results and performance. b) community attitudes toward educational programs should be reflected. c) evaluations are to be made by personnel designated by the board. d) persons to be evaluated should participate in their evaluations, including an opportunity for self-evaluation.	local bd.	X				
72-9005 (1973)	Any evaluation of an employee will be presented to him, and he will have a chance to respond to it in writing. Evaluation documents will be made available only to the evaluated employee, the board, the adminstrative staff, the state board of education, the board and staff to which any employee applies. For employment, and other persons specified by the employee in writing to his board.	local bd.	X				
72-9006 (1973)	The state board will provide for assistance in the preparation of original policies of personnel evaluation. If a local board fails to come up with a policy before 1/15/74, the state board may apply penalties as prescribed by rules and regulations applicable to accreditation of schools.	st. bd. of ed. local bd. st. bd. of ed. S 72-1114 (1972)	The board of education of any school district may make a self-evaluation on a district-wide basis in accordance with self-evaluation guides of the state board of education. Whenever any self evaluation is completed by a school district, it will be submitted to the state board of education, and if approved by it, the self-evaluation will be effective for the sole accreditation requirement of the school district for a period of 5 years from the date of approval. Accreditation under this statute will be effective for all purposes.	bd. of ed.				X	
		st. bd. of ed.			X		
72-1115 (1972)	The state board of education will adopt rules and regulations providing for annual reports from school districts which are accredited in this way. These rules and regulations will provide for annual validation the accreditation status during the 5 year period.	state bd. of ed.			X		
72-1116 (1972)	Accreditation of a school district under §1114 includes accreditation of every school in the district.						
72-7513 (1963)	The state board of education shall adopt and maintain standards, criteria, guidelines or rules and regulations to ... accredit schools including elementary, secondary and junior colleges, public and non-public.	st. bd. of ed.			X		
R 91-2-9 Standard IX (1968-1974)	High schools will be accredited by the state board of education with the designation either as accredited or accredited comprehensive.						
	An accredited high school must offer and teach at least 30 units of instruction in grades 9-12 each school year. The program will be organized to include courses that are appropriate and relevant to the students and meet these requirements.						
	1) the 30 units must be taught each year in separate classes.						
	2) all classes must be taught by certified personnel.						
	3) each school is required, when requested by the state department of education, to produce in writing, evidence demonstrating that teacher assignments are made according to program goals, objectives and expected outcomes.	st. dept. of ed.			X		
	In addition, evidence will be provided indicating pupil-teacher ratio, instructional time allotted, the level and number of assignments, materials, equipment and supportive services available.

72-7057 (1973)	There is established in every district a special education fund, which will consist of all moneys deposited there. All moneys received by the district from whatever source for special education will be credited to the special education fund. Expenses of a district for special education will be paid from the special education fund.						
72-7058 (1973)	All moneys received by a district for vocational education will be deposited in the district vocational education fund. All other moneys received from tuition, fees or charges from any other source for vocational education will be credited to this fund.						
§7059 (1973)	The driver training fund of a district covers all expenses of a district attributable to driver training.						
§7060 (1973)	The food service fund consists of all moneys deposited there and received by the district from charges for food service, and it covers expenses attributable to food service.						
§7061 (1973)	The transportation fund consists of all moneys deposited for transportation, including the proceeds of tax levies. Any district may transfer money from the capital outlay fund for the purchase of new buses.	district				X	
§7062 (1973)	Any revenues of a district not required by law to be deposited or credited to a special fund will be deposited or credited to any of the above funds.						
§7063 (1973)	Any lawful transfer of money from the general fund of a district to any other fund will be an operating expense in the year the transfer is made. In addition to other transfers, the board of any district may transfer moneys from its general fund to its capital outlay, transportation, special education, vocal education, food service or driver training funds. Expenditures for these categories will not be made from the general fund of a district.	dist. bd.				X

S 72-6734 (1963)	The legislature declares that the School Unification Act is passed for the general improvement of the public schools in the state of Kansas; the equalization of the benefits and burdens of education throughout the various communities in the state and to expedite the organization of the public school districts of the state so as to establish a thorough and uniform system of free public schools throughout the state whereby all areas of the state are included in school districts which maintain grades 1-12; and to have a wider use of the public funds expended in support of the public school system.						
Statewide Goals for Education in Kansas, Kansas State Bd. of Ed. 7/6/72 Goal I	The Kansas educational programs will provide continuous and successful acquisition of skills, knowledge and attitudes which are appropriate and conducive to individual personal growth and development and necessary for productive and satisfying life in a changing society.						
1.A.1	Students should acquire mathematics skills which include: 1) the ability to transpose a verbal presentation of mathematical processes into symbolic form; 2) the ability to interpret the results of mathematical operations done by others, including graphs; 3) the concept of data processing; 4) the application of mathematics to concrete situations.						
1.A.2	Students should demonstrate communication skills which include writing, listening, speaking and reading.						
1.B.1	The school age population should develop an attitude of open-mindedness toward change and the appropriateness of alternative change strategies.						
1.C.1	A structured program in career awareness should be developed for entry into the world of work or preparation for post-secondary education with eventual employment.						
1.C.2	Vocational education programs should be designed to emphasize specialized and/or technical training in those occupational areas determined to have high employment potential, including opportunities for women.						
1.D.1	Each public education institution under the authority of the state board should provide the opportunity for education for all out-of-school youth and adults.

1.E.1-2	Physical education should promote physical and mental health development of each student through class instruction, extra-class activities and interscholastic activities.						
1.E.3	All students should demonstrate the ability to select foods which provide a balanced and healthful diet.						
1.E.4	Nutritious meals should be available in all schools at a price within the financial means of the students.						
1.F.1	All schools should provide instruction in values and citizenship and in social relations.						
1.G.1	All school districts should provide activities to help all students become aware of their academic abilities, plus social and vocational experiences.						
1.H.1	All schools should provide students and faculty with functional safety awareness and sense of responsibility.						
1.I.1	The curriculum should include consumer education with the aim to ensure that each citizen will obtain maximum benefit from personal resources.						
1.J.1	Every student should have planned learning experiences in developing a knowledge of his environment.						
1.K.1-4	Every student should be provided organized learning experiences in one or more of the arts under the guidance of well-qualified teachers.						
1.K.5	All students should be familiar with methods of scientific inquiry.						
Goal II	The Kansas Educational System, recognizing disparity of educational opportunity afforded various segments of the population, will provide specific programs for all groups.						
11.A.1	Each school district, community junior college, area vocational-technical school, and Kansas Technical Institute should determine the major underlying causes of dropouts, adopt a plan to make an early identification of dropouts and institute a program of preventive measures for them.						
11.B.1	All adults should have equal opportunity to obtain a high school diploma or the equivalency.						
11.C.1	An inter-agency should co-ordinate programs at institutions to implement equal education for all institutionalized people according to their needs and abilities.

				Responsibility of Agency			
11. D. 1	All exceptional children from birth through youth should have educational services available in local schools or cooperatives.						
11. D. 2	An organized program of follow-up for students who complete programs for handicapped individuals should be in full operation.						
11. D. 3-4	The state should be fully organized in broad-based co-operative districts as part of a centralized administrative system for exceptional students.						
11. E. 1	All schools should provide for children of bilingual backgrounds by offering special programs in schools with 20 or more such students and by recruiting teachers of similar ethnic backgrounds.						
11. F. 1	After a definition of early childhood education has been established, an early childhood education program should be developed with the co-ordination of all agencies working with early childhood.						
11. 6. 1-3	The relationship between the home and the school should be strengthened for the economically disadvantaged. Evidence at the pre-school level should be obtained to determine the level he has reached with language, visual, auditory and tactile approaches.						
Goal 111	The educational system will provide for the accomplishment of educational goals through preparation and improvement of personnel and utilization of the most effective educational methods.						
111. A. 1-2	All teacher preparation programs should be a cooperative effort among colleges and universities, district schools, professional agencies and organizations.						
111. B. 1	Each school district should develop and implement a plan that will provide for continuous professional staff development.						
111. C. 1	Each educational district should establish a coordinated library media program.						
111. D. 1	Where appropriate, students should be on individualized learning programs.						
Goal IV	The educational system will cooperatively develop the needed educational management capabilities to provide meaningful information and effective administration of all educational programs in the state.						
IV. A. 1	Equal educational opportunities based on individual needs for students in all education units should be offered with the assistance of state financing, including incentive funding.

IV. B. 1	As an integral part of an accountability model, a needs assessment model which includes the following should be authorized for use by state school districts: 1) a goal categorical structure; 2) an evaluation model; 3) a management information system; 4) a goal directed management system; 5) a cost effectiveness model.						
IV. C. 1	The state should be divided into cooperative service areas for the purpose of providing a component to develop long-range plans; allocate fiscal, physical, and human resources necessary to implement those plans; and evaluate progress during the implementation.						
IV. D. 1	A management information system should be developed to analyze educational information to all segments of the educational system.						
IV. E. 1 see District Org.	Each unified school district should have a sufficient number of students and adequate financial resources to provide excellence of education.						
IV. F. 1	Physical facilities that are well placed, sufficient in number, and functional should be provided to create an atmosphere which will stimulate and encourage learning.						
IV. G. 1	There should be an on-going, formal educational needs assessment in the state.						
IV. H. 1	Each educational unit should develop a system of communication which reacts to ideas among all elements of the educational system.

Article 54 Teachers Contracts 72-5401 (1937, 1969)	The term instructor as used in this act will mean and include teachers, supervisors, principals and any other professional employees required to hold an instructor's certificate, except superintendents, employed in the public school system in school districts in which there is located all or the greater part of a city having a population more than 120,000.						
72-5402 (1937)	The term demoted means transference to a position in a different branch of the school system with a reduction in salary without the instructor's consent. No instructor on permanent tenure will be reduced in salary unless the reduction is part of a general plan affecting the salaries of 50% or more of the instructors in the public school system.						
72-5403 (1937, 1967, 1969)	All instructors in the public school system of school districts in which there is located all or part of a city of 120,000 during the first 3 years of consecutive employment will be deemed to be in a probationary period of employment. Any annual contract with any such instructor may or may not be renewed as the board of education of the school district will see fit. The board of the school district may, during the probationary period, discharge or denote an instructor for any of the causes specified under 5406. A statement of the causes of the discharge will be given by the superintendent to the instructor at least 30 days before it becomes effective. None of the provisions of 5401 to 5409 apply to any school district in which there are located 2 cities of the first class.	bd. of ed. of sch. district local sup.	 X			X	
72-5404 (1937)	After the completion of the probationary period without discharge, the re-employed instructors will continue in service in the public school system during good behavior and efficient and competent service and will not be discharged or demoted except for one or more of the causes specified in 5406 and after a notice and hearing as specified in §5407.						
72-5405 (1937)	The proposed discharge or demotion of an instructor having permanent tenure on account of incompetency or neglect of duty will be preceded by a warning and specific statement in writing of the defects for the proposed discharge or denotion given the instructor, and the instructor given an opportunity for improvement.	local bd. of ed.	X				
72-5406 (1937, 1967, 1968)	Causes for the discharge or demotion of an instructor either during or after the probationary period will be: immoral character, conduct unbecoming an instructor, insubordination, failure to obey reasonable rules promulgated by the board of education, inefficiency, incompetency, physical unfitness or failure to comply with reasonable requirements of the board of education as may be prescribed to show normal improvement evidence of professional training. Instructors may also be dismissed because of decrease in the number of pupils or for other causes over which the board of education has no control. Dismissals for reasons under this last category must begin with those instructors with the least number of years of service and the dismissed instructors will be placed on a preferred eligibility list and will have the right to be restored to duty in the order of length of service whenever vacancies occur in which the instructor is qualified. Instructors will be retired at the end of the school year when they attain 65, except for year-to-year consent by the board.	local sch. bd.				X

72-7006 (1965, 1967)	The pupil-teacher ratio of a district (PTR) is obtained by dividing the number of pupils enrolled in the district on 9/15 of the current school year by the number of certificated employees employed by the district on that date. The PTR factor will be one (1) for any district which is a unified school district under the school unification acts and which has only one high school with less than four certificated employees and which has less than 1,000 pupils and PTR of 14 or more. For other districts the PTR factor will be one (1): for districts with less than 1,000 pupils and PTR of 15 or more. At least 1,000 and less than 2,000 pupils and PTR of 16 or more. At least 2,000 and less than 3,000 pupils and PTR of 17 or more. 3,000 - 4,000 pupils and PTR of 18 or more. 4,000 - 10,000 pupils and PTR of 19 or more. At least 10,000 pupils and PTR of 20 or more. For pupils whose PTR is less than the required minimum for the district under this section for a PTR factor of one (1), the PTR factor will be the district's PTR divided by the minimum.

72-7030 (1973)	This act is called the school district equalization act.						
72-7033 (1973)	"Pupil" means any person who is regularly enrolled in any of the grades, kindergarten through 12. Any pupil who is not regularly enrolled full-time will be counted as that proportion of one pupil (to the nearest 1/10) that his regular enrollment bears to the full-time regular enrollment. A pupil enrolled in kindergarten will be counted as 1/2 pupil.						
	Any pupil enrolled in area vocational school will be counted as that proportion of one pupil (to the nearest 1/10) that his non-vocational education enrollment bears to full-time enrollment.						
	"Enrollment" or E means the number of pupils in a district on 9/15.						
72-7035 (1973)	"General fund" means the fund of a district from which operating expenses are paid and to which is deposited all amounts of general state aid, property taxes, distributions and payments from the school district income tax fund.						
72-7036 (1973)	"Operating expenses" means the total expenditures and transfers from the general fund of a district during a school year for all purposes.						
72-7038 (1973)	"Budget per pupil" means the legally adopted budget of operating expenses of a district divided by the number of pupils enrolled in the district on 9/15.						
72-7040 (1973)	"State assessed property" means all real or tangible personal property assessed by the director of property valuation, the valuation of which is certified to the various taxing districts of the state.						
	"State ratio" means 30%.						
72-7042 (1973)	"District wealth" means the sum of the adjusted valuation of a district and the taxable income within the district in the year for which the most recent such valuation and income figures are available.						
	"Local effort" means the sum of 1) the product of a district's local effort rate and district wealth; 2) federal funds received or allocated; 3) funds from the state board of education; and 4) the amount of intangible tax to the credit of the district.

			M	A	S&M	D	
72-7043 (1973)	In February of each year the state board will determine the amount of general state aid each district is entitled to receive for the current school year by subtracting the amount of the district's local effort from the district's legally adopted budget. The remainder is the amount of general state aid to which the district is entitled.	st. bd. of ed.	X				
72-7044 (1973)	For the 1973-74 school year, the local rate of a district will be 1 1/2% if the district's budget per pupil is the amount prescribed by the following schedule: Enrollment — Budget Per Pupil Under 400 — $936 400 to 1299 — $936 1300 and over — $728 If a district's budget per pupil is more or less than the budget per pupil prescribed by the above schedule, the district's local effort rate will bear the same proportion to 1 1/2% that its budget per pupil bears to the amount per pupil prescribed.						
72-7045 (1973)	The same plan will be followed for subsequent years.						
72-7046 (1973)	Annually, the state board will prepare an enrollment schedule, which will describe the relationship between the enrollment of districts and budgets per pupil.	st. bd. of ed.	X				
72-7047 (1973)	The per pupil transportation allowance will be 100% of the formula per-pupil cost of transportation or 100% of the actual per-pupil cost of the district for transportation, whichever is lower when the per-pupil transportation allowance is multiplied times the number of pupils who reside in the district 2 1/2 miles from school and are currently being transported.						
72-7048 (1973)	There is hereby established a school equalization fund to which will be credited: 1) all monies deposited in or transferred to the state annual school fund; 2) all amounts received by the state treasurer under §7069; 3) all amounts appropriated or transferred by the state legislature.						
72-7055 (1973)	No district will budget more than 115% of the amount of its budget per pupil in the preceding school year or 105% of the median budget per pupil in the preceding school year of districts within the same enrollment category, whichever of these two figures is lower.	local district	X

	comprised primarily of non-professional persons appointed by the board and having qualifications and terms approved by the state board.	area adv. council st. bd. of ed.		X 	 X	X 	
72-4416 (1969)	Any board may present a plan to the state board for the establishment and operation of an area vocational school. Information included in support of the plan will include: concentration of population; total school enrollments in grades 1-8, and 9-12, separately; number of persons graduating from high school within the area; identification of vocational education services needed; local interest and attitudes toward the program; ability to contribute to the financial support of the program; consideration of the area in relation to other programs to prevent duplication of services. Upon receipt of the plan, the state board of education makes whatever investigations it thinks appropriate.	local bd. st. bd. of ed. st. bd. of ed.			 X X	X 	
72-4417 (1969, 1972)	Students admitted to a vocational education course or program conducted by the school district may be charged fees but not tuition, except where the program is at a community junior college. Students admitted to programs in another district may be paid for by his resident district or by the state or federal government. All tuition and fees must be approved by the state board of education. Persons who have not lived in a district where they attend area vocational schools are considered to be non-residents for the purpose of determining tuition and fee liability.	local bd. of ed. st. bd. of ed.	X 		 X		
72-4418 (1969)	The state board of education will adopt rules and regulations relating to enrollment procedures for students' vocational education programs. Any person who is approved by the board administering a vocational education course and who is living in a district which does not have such a course may apply to the board of education of the district where he resides for admittance. A person denied admission may appeal to the state board of education, whose determination on the subject will be final.	st. bd. of ed. local bd. of ed. st. bd. of ed.	X 		X X		 judicial review
72-4419 (1973)	The school district where a student resides will pay for the tuition of the above program. If the school district does not have an agreement with the other school districts under §4419, should there be insufficient monies to pay the tuition, the board of education will transfer from the general fund to the vocational education fund an amount to satisfy the insufficiency.	local bd. of. ed. local bd. of ed. 77-4420 (1969, 1972)	The board of education of any school district will levy a tax not to exceed 2 mills for the purpose of providing revenue for the cost of maintaining and establishing vocational education programs which are currently approved by the state board and for tuition and fees which are approved by the state board. This tax levy will be in addition to all other tax levies authorized or limited by law. The tax levy will be budgeted and maintained as a separate fund to be known as the vocational education fund.	local bd. of ed.	X				
77-4421 (1969)	Any board may enter into a vocational agreement with any other board subject to the following:	local bd. of ed.	X			X	
	a) the agreement will be for a term of 3-5 years;						
	b) the agreement will be subject to change or cancellation of the legislature at any time in accordance with Article 6, section 5 of the Constitution of Kansas;						
	c) the agreement will be approved by the state board before it has any force or effect;	st. bd. of ed.			X		
	d) the agreement may provide for payment between boards of monies for vocational education and administering an area vocational school course or program;	local bd. of ed.				X	
	e) the agreement may provide that the tuition of pupils residing in any of the contracting districts will be paid by the board receiving funds under this agreement;						
	f) the agreement may provide that only certain vocational courses or programs are to be contracted for.						
72-4422 (1969)	Any board, except the board of a community junior college, may admit out of state persons as students in vocational education courses upon payment of tuition and fees which will be equal to a proportionate share of the total cost of operation of the vocational education program, if the attendance and tuition has been planned for and approved by the state board and is not inconsistent with state plan for vocational education as approved by the state board.	any bd. of ed. st. bd. of ed.			X	X	
72-4425 (1969)	Every board will make periodic and special reports of statistical and financial information to the state board as it may request. The state board of education and its officers and agents may inspect and audit any of the financial records of the board and may enter and inspect any physical facility used for any vocational education course or program.	local bd. of ed. st. bd. of ed. 20/211	It is state policy to encourage the development of school administrative units of sufficient size to provide a more equalized educational opportunity for pupils and to achieve a greater uniformity of school taxes among school administative units and a more effective use of public funds expended for the support of public schools.	Maine	X				
36/451	The commissioner of education and cultural services with approval of the state board of education shall annually certify to state tax assessor 50% of total educational costs in 1973 and 1974 and thereafter for the current school year to be completed.	C/E	X				
		SBE			X		
		st. tax assessor			X		
20/3711 (1973)	For the necessary expenses of local and state government, a tax is assessed at a rate that is equivalent to 50% in 1973-74 and thereafter of the estimated total state public school education costs divided by the total of the most recent state evaluation adjusted upward to nearest quarter mill as filed under section 381 to 100% valuation plus 7 3/4 mills on the dollar applied to 100% property tax commencing April 1, 1974.						
	Intent of the act is to reduce burden for education from property taxes to 40% and to provide 60% from state tax sources.	legis.	X				
	There is a three stage implementation schedule, e.g. 1974-75 - 50% state, 50% local. Also to finance 40% property tax through a uniform tax applied to all administrative units alike.						
	The uniform property tax described in 451 and 453 and Title 36 shall be implemented during same three-year period to minimize property taxes in any one year.						
	Legislature intends a limt for more local taxes encouraging more efficient management of local resources.						
20/3712 (1973)	Equalization formulas based on operating costs. and average number of resident pupils. School aid payments shall be made to treasurer of administrative unit, based on audited financial reports submitted by units.	treas. of admin. unit	X				
3713 (1973)	Computation of unit allocations:						
	The state board of education shall recommend to the Bureau of Budget, equal to cost of education for a year, the best estimate considering all factors. 50% is derived from state sources and 50% from uniform property taxes.	SBE		X			
	Basis of allocation:						
	A. Multiply the average number of resident elementary pupils in the unit by state average elementary per pupil cost. 1974-1975 $600/pupil distributed (elementary schools).

Charge to the State Advisory Council on Accountability 2/14/73	The purpose of the State Advisory Council on Accountability is to constitute a broad representation of the educational profession in Maryland and of the state's citizenry. Members are appointed to serve for 2 years. The Council has the following responsibilities: 1) review and recommend a plan for statewide student achievement data collection, processing and reporting in reading, writing, and mathematics. 2) review and recommend the statewide plan for local reports describing the objectives identified by the school systems to address educational needs. 3) review instructional objectives in reading, writing and mathematics assembled by the state department of education. Certain objectives should be flagged as representing minimum objectives for all local school systems and schools. 4) recommend statements of what should be expected of students at certain ages, such as 9, 13 and 17. 5) review and recommend evaluation procedures, following technical proposals from specialists. 6) review and recommend a progress reporting plan.	St. Adv. Council on Accountability	X	X			
	Recommendations of the Advisory Council to the superintendent will be approved, or modified and approved, and then presented to the state board of education for final action prior to implementation.	supt. st. bd. of education			X X		
77 §8 (1969)	The state board of education will conduct, on the advice of the state superintendent of schools, investigations relating to the education needs of the state and the means of improving educational conditions.	st. bd. of ed. st. supt. of schools			X X

	The instructor submits an outline of the course to the state supervisor before it is taught.	instr. st. super	X		X		
	The course will consist of at least 10 sessions of 2 hours each and of not more than 24 sessions of the same length of time, meeting more than 2 evenings each week. Apprentice classes will meet for at least 144 hours per year.						
	It is the general practice to have the enrollees pay for the materials used in adult education courses.						
	If the county board of education expects reimbursement for these courses, the request for funds as well as the instructor must be approved by the state superintendent of schools.	county bd. of ed. st. supt. of schls.	X		X		
Principles and Standards, Public Secondary Ed. in Maryland	Public evening high schools may be organized to provide courses leading to a high school diploma for students beyond the compulsoary attendance age and who are not enrolled in a day school; to provide instruction for students who want to prepare for college; and to provide instruction for those desirous of self-improvement.						
	For admission, the school requires completion of a satisfactory 8th grade course or other acceptable evidence that the pupil qualifies for high school work. The school admits only those students who have reached the upper age limit of compulsory school attendance prior to the date of enrollment.						
	Qualifications for staff members are the same as in the public day schools. Any deviation from these requirements requires approval from the state superintendent of schools.	st. supt. of schls.			X		
	Annual reports to the state superintendent of schools in a manner prescribed by the state board of education are required.	st. supt. of schls. st. bd. of ed.			X		
	The minimum enrollment will be at least 100 students when a four year program leading to a diploma is offered.						
	Credits granted will be based upon successful scholastic attainment equivalent to that expected of day school students. A unit of credit may be granted in special cases upon the attainment of a satisfactory score on an examination without residence. A maximum of 6 units of credit applicable to the requirements for an evening high school diploma may be earned by examination. Credits earned by testing are not transferable.

Statutes 77 §124 (1973)	The comptroller pays from the General State School Fund the annual appropriation made by the General Assembly: for the support of the state department of education; the support of the state board of education and the office of the state superintendent of schools; the annual appropriation for the teachers' retirement system; the appropriation for the education of handicapped children; for subsidized and/or free feeding programs; for the administration and supervision of vocational education; for physical education and recreation; for medical examination of school bus drivers; for vocational rehabilitation; for public libraries; the cost of adult education; the state share of basic current expenses; transportation costs, and school building construction aid.						
77 §126 (1970)	Subsidized and free feeding programs						
	Every public school throughout the state will provide a program of subsidized and/or free feeding for the benefit of children meeting the standards promulgated by the state board of education.	every public school	X				
		st. bd. of ed.			X		
	The state feeding program is established. Each year the state superintendent of schools determines the amount of state funds that will be required to provide a program of subsidized and/or free feeding programs. That amount will be included in the state budget and distributed to the county boards of education and boards of school commissioners of Baltimore.	st. supt. of educ.	X				
	The General Assembly states these desirable policies in the administration of the school feeding programs: 1) Private organizations and corporations should be encouraged to participate. 2) The identify of children participating in the program should remain anonymous. 3) Applications to participants in the program should be brief and simple. 4) There should be no discrimination among these programs for elementary, jr. high and high school students.						
77 §130 (1973)	Each county and Baltimore City will receive state funds for school building construction aid.						
	The state will share in an expenditure for school construction equivalent to 80% of approved expenditures up to $1500 times the number of pupils housed. The State will also share 80% of the principal and interest payments due during the fiscal year on local debt for school construction.	state	X				
	The superintendent of schools will approve all expenditures for school construction made under this section.	st. supt. of schls.			X

Statutes 77 §106A (1973)	A disadvantaged youth is one who because of environmental conditions is not achieving scholastically commensurate with his full abilities and who must compensate for his inability to profit from the normal educational program. He is a youth who: 1) is between the ages of 3 and 18 years and has not been graduated from high school; 2) is capable of graduation from a secondary school; 3) is, because of home and community environment, subject to language, cultural, and economic disadvantages that will make graduation improbable without special efforts on the part of school authorities. A program of compensatory education is a program in any local school system in any of the grades, which is in addition or supplementary to the regular education programs of the local school system. The program includes positive stimulation of the intellectual abilities of disadvantaged youths and a plan for identifying them.						
§106B (1973)	The state board of education may, to the extent funds are provided in the state budget or are available from other sources, establish compensatory education programs of the following types: 1) new or modified teacher training curricula; 2) research and consultative projects to assist state and local public school agencies; 3) evaluation, demonstration and dissemination of findings.	st. bd. of ed.				X	
	The state board of education will establish criteria to guide local school systems in making applications for any state funds and for funds provided under the Elementary and Secondary Education Act.	st. bd. of ed.			X		
	Each application of a local school system for state funds will include a comprehensive compensatory education program which will be preventive and will have as an ultimate goal the teaching of the teaching of the children to read, awakening his interest in learning, giving the child a sense of success in school achievement, preventing the child's alienation from school, and preventing his possible early departure from school.	local school system	X				
§106C (1973)	The state superintendent of schools will have overall control of the programs. He is responsible for approving local program applications and for providing technical and consultative assistance. See: Revenue & Expenditures, 77 §128B	st. supt. of schls.			X

Principles and Standards; Public Secondary Education in Md. (1964)	Periodic evaluation requires a specific organization and will demand the attention of one or more staff members to be operated effectively. Answers will be sought to fundamental questions such as the following: 1) What is the purpose of the school? 2) How well is the school serving the needs of the community? 3) What should be the offerings to best suit the students? 4) Is the school doing its task as well as it should? 5) How can the school better its program? 6) How well are its graduates doing? For the purpose of evaluation, the school may use a variety of instruments and techniques such as: 1) surveys 2) follow-up studies of students completing junior high school and of senior high school graduates 3) self-evaluation by faculty and students 4) evaluative criteria such as those employed by the regional accrediting agency 5) standardized tests 6) assessment of community reactions and attitudes 7) a study of dropouts 8) follow-up with post-high school institutions and agencies to determine how well the graduates are doing a) assessment of the achievement of students by studying school promotions and failures 9) study of the behavior patterns of students in and out of school.

Graduation Requirements

Maryland

Source Cite Date	Substantive Description of Requirement	Agency Level & Name	Responsibility of Agency M	A	S&M	D	Sanctions for Non-Compliance
Principles and Standards Public & Secondary Education in Md. (1964) I. 6	The minimum number of units for high school graduation will be 18, of which 12 must be in the field of general education as listed below and 6 or more in the fields of special interests including an appropriate course area. These are as follows: Area — Units English 4 Social Studies (3 — 3 (1 of which must be in U.S. history) Science 2 Mathematics 2 Physical Ed. 1 Electives 6 18	student	X				
	A full unit in physical education may be earned in one school year only when the offering is regularly constituted as Health, Physical Education for a total of at least 150 clock hours over 36 weeks.						
	Among the minimum total of 18 units, there may be included not more than 2 units composed of unrelated fractional units.						
	Although a single diploma is authorized by the state for all students completing 18 units of credit, an individualized program should be planned for students anticipating college, employment or both.						
	A waiver of the four year requirement will be granted when it is in the best interest of the student by the local superintendent. Specific guidelines may be developed by local boards of education.	local supt. local bds. of ed.			X X		
	As a further condition to graduation, a student should have been enrolled in the school from which he expects to graduate for a minimum of one full semester immediately preceding his scheduled graduation. When the local superintendent of schools approves, the high school principal may make the necessary arrangments to resolve the problem in a satisfactory way.	local supt. of schools high schl. principal			X	 X	
Statutes 77 §82 (1969)	There will be one type of diploma or certificate issued to all students graduating from county high schools regardless of the high school attended or the course taken. This will state that a student has satisfactorily completed a program of studies in accordance with the requirements of the state board of education.	st. bd. of ed.			X

Statutes 77 §128A (1973)	Definitions						
	"Basic current expenses" means the expenditures made by a county for public elementary and secondary education, exclusive of:						
	a) payments for debt service, capital outlay and transportation;						
	b) state aid for handicapped children;						
	c) state aid for driver education;						
	d) state aid for food services						
	"Pupils enrolled" refers to						
	a) all pupils enrolled in grades 1-12 in regular day school programs						
	b) 1/2 of all kindergarten pupils						
	c) the number of full-time equivalent pupils, as determined by regulations of the state department of education, enrolled in evening classes.	st. dept. of ed.			X		
	"Wealth" means the sum of net taxable income and adjusted assessed valuation of real property.						
	"adjusted assessed valuation of real property" will be as reported by the state department of assessments and taxation for state purposes. The calculation will be adjusted to 55% of market value.	st. dept. of assessments & taxation			X		
	State and county share of basic current expenses (1977-78 et seq.). For the school year 1977-78 and thereafter, each county board of education will receive from the state an amount known as the "state share of basic current expenses" which, for each county, will be calculated as follows:						
	1) The state will share in an expenditure for basic current expenses of $610 multiplied by the number of pupils enrolled.						
	2) To be eligible to receive the state share of basic current expenses, the county governing board will levy an amount of revenue for elementary and secondary education equal to the product of the wealth of the county and a uniform % (determined by multiplying 0.45 times the sum of the basic expenses).

	3) The state share of basic current expenses for each county will be the difference between the county share and the basic current expense to be shared. For the school years 1973-74 to and including 1976-77, the state share of basic current expenses will be calculated and paid as follows: A fixed amount for each county will be divided by the number of pupils enrolled for the school year 1973-74 in each county. For each school year until 1977-78, the state share of expenses will be the expenses plus an increasingly larger % of the difference each year between this amount and the county share.						
§128B (1973)	For any county with a population density exceeding 8000 per square mile as determined by the state department of health, an amount equivalent to $50.00 per pupil enrolled on 9/30 will be added to the state share of the basic current expenses. The amount will be used to provide compensatory programs for students with special educational needs resulting from educationally or economically disadvantaged environments. The superintendent of schools for any county qualifying for the additional amount will submit plans to the state superintendent of schools for his approval outlining the uses to which the funds are to be put. MGLA C. 71 § 7A 1966	The state treasurer shall annually, pay to the several towns subject to appropriation, the sums required as reimbursement for expenses approved by the commissioner of education, incurred by any town for the transportation of pupils once daily to and from any school within the town, or in another town, in excess of five dollars per annum per pupil in the net average membership of such town; provided (a) that no transportation reimbursement shall be made on account of any pupil who resides less than one and one half miles from the school which he attends, measured by a commonly travelled route; (b) that the amount of grant, per pupil, for transportation to private schools in towns which furnish such transportation, shall not exceed the amount of grant per pupil for transportation to public schools and (c) that no contract shall be awarded except upon the basis of prevailing wage rates, as hereinafter provided, and of sealed bids, and the school committee shall, in theevent that a contract is awarded to other than the lowest bidder, file with the department a written statement giving its reasons therefor, which statement shall be open to the public inspection. No expense incurred by a town for transportation of pupils shall be approved by the commissioner if he deems it unauthorized. There are extensive provisions for awarding transportation contracts.	commissioner of education state treasurer	 X		X (approval)		
C. 71 § 7B 1964	To provide for the reimbursement of part of the cost not reimbursable under section seven A incurred directly by a school department or directly by a city or town on account of an assessment made to meet the cost of maintaining a public transportation system used for the transportation of pupils pursuant to C. 159A, §1&7 or c. 161A. If the determination of the number of pupils residing more than one and one half miles from the school of attendance is impracticable, the commissioner shall make such determination according to the following formula: from the net average membership in the public and private schools, determined as provided in section five of chapter seventy, the commissioner shall estimate the number of pupils who reside more than one and one half miles from the school they attend, which number shall not exceed ten per cent of said net average membership.	Commissioner of education Commissioner	X X				
	The commissioner shall certify to the state tax commission a transportation allowance payable to such city or town for the preceding school year, the amount of such allowance to be determined by him by multiplying the number of pupils on the estimated number of pupils residing more than one and one half miles from the school by the average cost per pupil in the city or town for transporting all such pupils; provided that such costs shall not exceed twenty cents per pupil per day.	Commissioner	X				
	Funds recieved by each city or town shall be used to pay the cost of providing public transportation or to reimburse a city or town for payments on account of any assessment made upon it to meet the cost of maintaining a public transportation system provided that notwithstanding the provision of this section, no amount shall be approved as a reimbursement by the commissioner as herein provided in excess of the amount to be paid by such a city or town for said public transportation.

C. 70 § 1 1966	Purpose of financial assistance shall be to promote the equalization of educational opportunity in public schools and the equalization of the burden of the cost of school support to the respective cities and towns. Assistance provided under this chapter shall be designated as school aid.						
C. 70 § 2 1972	When used in this chapter the following words shall, unless the context requires otherwise, have the following meanings:-- (a) "Equalized valuation", the equalized valuation of the aggregate property in a city or town subject to local taxation, as most recently reported by the state tax commission to the general court under the provisions of section ten C of chapter fifty-eight.						
	(b) "Public school", any school or class under the control of a school committee, regional district school committee, local trustees of vocational education or district trustees of vocational education.						
	(c) "Reimbursable expenditures", the total amount expended by a city or town during a fiscal year for the support of public schools during said year exclusive of expenditures for transportation, for food for school food service programs, for programs of vocational education as provided in C. 74 and for capital outlays, after deducting therefrom, any receipts for tuition, receipts from the federal government, the proceeds of any invested funds, and grants, gifts and receipts from any other source, to the extent that such receipts are applicable to such expenditures, provided, however, that amounts received by a city or town under this chapter as school aid shall not be so deducted. The commissioner of education, may, by regulation, further define the expenditures and receipts that may be included hereunder.						
	(d) "School aid percentage", for each city or town, the amount by which one hundred per cent exceeds the product, to the nearest tenth of one per cent, of sixty-five per cent times the valuation percentage; provided that, in applying the school aid formula under section four, the maximum percentage of state support shall be seventy-five per cent and the minimum shall be fifteen per cent.						
	(e) "School attending child", any minor child in any school, kindergarten through grade twelve, resident in the city or town, as reported by the superintendent of schools in accordance with the requirements of section two A of chapter seventy-two.						
	(f) "Valuation percentage", the proportion, to the nearest tenth of one per cent, which the equalized valuation per school attending child of the city or town bears to the average equalized valuation per school attending child for the entire state.

MGLA C.59 §23C added 1952 1969	The assessors shall annually determine the school tax rate and the general tax rate of the town in the manner hereinafter provided and shall certify the same to the collector for inclusion in the tax bill. For such purpose the assessors shall first determine the school assessment by deducting from total school appropriations the estimated amount of school income together with the school percentage of estimated general receipts and by adding to the amount then remaining the school percentage of any overlay for abatements. The school tax rate shall then be computed by the assessors by dividing such school assessment by the total valuation of real and personal property in thousands of dollars. The general tax rate shall be determined by deducting the school tax rate from the total tax rate pursuant to this chapter. As used in this section, definitions: 1. School appropriations - the total amount appropriated or lawfully expended since the last preceding annual assessment and not provided for therein for the support and maintenance of public schools, for the payment of principal and interest on any debt incurred for school purposes, and for all other school purposes as defined in chapters 69, 71, 74 and 76 including the transportation of pupils, and any penalty under C.71 §34. 2. School income - the total of: all estimated receipts of school aid under C.58, §18A, paragraphs (3) & (4); all estimated receipts of the SC; any other estimated receipts under any provisions of C.69, 71, 74, 76; amounts appropriated for school purposes to be taken from available funds; and other reimbursements grants or gifts assigned or intended for school purposes and applicable to the school appropriations of the year. 3. General receipts - the total of: amounts voted to be taken from available funds for the reduction of taxes; estimated receipts from the commonwealth in reimbursement for publicly owned land and from the commonwealth under C.58, §18A, sub§ (b), para. 1, 2 and 5; estimated receipts from licenses, fines and the excise on motor vehicles and trailers and from interest on taxes, assessments and deposits; and, any other estimated receipts not assigned for any special purpose. 4. School percentage - the proportion that total school appropriations bears to the gross amount to be raised, as determined by the assessors in computing the total tax rate, after deducting from such gross amount (a) the overlay for abatements and (b) any appropriations for public service enterprises and the service of any outstanding indebtedness incurred therefor. MGLA C. 70 App. §1-1 1948	There is established in the dept of education (but not subject to its control) a temporary commission--the school building assistance commission.						
C. 70 App. §1-2 1948	To consist of commissioner of education, ex officio, and 6 other members--4 to be appointed by governor and 2 by board of education.						
C. 70 App. §1-4 1948	Its powers and duties are to encourage and foster the building of consolidated and regional public schools and to administer grants for planning and construction of school buildings.	school building assistance commission	X				
C. 70 App. §1-5 1948	Definitions: For the purposes of this act, the following phrases shall be defined as follows: "Regional school" shall mean any public school established under any provision of law by the action of two or more cities or towns. "Consolidated school" shall mean any school constructed or enlarged with the intent of eliminating one or more existing schools. "Regional school building committee" shall mean any agency organized by two or more cities and towns under any provision of general or special law for the purpose of planning or constructing a regional school. "Regional school district" shall mean any agency established for the purpose of operating a regional school. "The equalized valuation" shall be established by the general court for the purpose of this act or, if no such valuation has been made, the last preceding valuation made for the purpose of apportioning the state tax. "Enlargement of a schoolhouse" shall mean the construction of additional building space for use as a classroom, cafeteria, gymnasium, auditorium, utility room, boiler room, special activity room. "Equalized valuation per pupil" shall be the product of dividing the equalized valuation by the net average membership.						
C. 70 App. §1-8	Upon receipt of application by city, town, regional school district or county for school construction grants and/or vocational schools, the commission shall determine together or not the proposed construction is in its proponents best interests and shall estimate the costs.	school building assistance commission				X	
C. 70App. §1-9 1970	From time to time, the commission shall certify to the comptroller, and the state treasurer shall, within 30 days after each such certification, pay to the several cities, towns, districts and counties, from any amounts appropriated therefor, the amounts due them in accordance with the following clauses- The total construction grant for any approved school project in any regional school district shall be one third of the product of the final approved cost of the project multiplied by the equalized valuation per pupil in net average membership for the entire commonwealth divided by the total equalized valuation per pupil in the total net average membership of the towns comprizing such district; provided, however, that no grant shall be approved for any amount less than forty per cent or more than sixty-five percent of such approved cost; and provided, further, that regional school districts in which at least sixty percent of all the member municipalities are designated as depressed	comptroller		X X

C. 69 § 2	Commissioner shall present to the general court, on or before the first Wednesday of January of each year, a statement of amounts expended by counties, cities and towns for maintenance of approved vocational schools.	commissioner	X				
C. 74 § 1 1965	Definitions: The following words, as used in this chapter, shall have the following meanings unless the context otherwise requires: "Agriculture education", vocational education fitting pupils for occupations connected with agriculture, the care of domestic animals, forestry and other wage earning or productive work on farm land. "Distributive occupations", those followed by workers directly engaged in merchandising activities, or in direct contact with consumers, retailers, jobbers, wholesalers and others when distributing the products of farm, commerce and industry, and when managing, operating or conducting a commercial service or personal service business, or selling the services of such a business. Such phrase shall not include clerical occupations. "Evening class", in either an independent industrial school or an independent distributive occupations school, a class giving instruction for pupils employed during the working day, and which, to be called vocational, must deal with and relate to the day employment. "Household arts education", vocational education fitting pupils for occupations connected with the household. "Independent agricultural school", either a distinctive organization of courses, pupils and teachers designed for agricultural education, or a separate agricultural department in a high school, offering as elective work education in agriculture approved as vocational. "Industrial education", vocational education fitting pupils for trades, crafts, and manufacturing pursuits, including occupations of girls and women in workshops. "Net maintenance sum", the total sum raised by taxation and expended for maintaining approved local or district independent distributive occupations, industrial, and household arts schools and independent agricultural schools, other than departments in high schools, less the amount of tuition claims, paid or not, and receipts from the labor of pupils and sale of products; provided, that in the case of Smith's agricultural school there shall be added to the sum raised by local taxation the sum annually received by the city of Northampton from the Smith charities and expended for the maintenance of the school, and that in the case of the Henry O. Peabody school for girls at Norwood there shall be added to the sum raised by local taxation the sum annually received by the town of Norwood from the Peabody charities and expended for the maintenance of the school.

Statutes §15.3731 (1948, 1962)	a) Except as otherwise provided in the statute, every parent, guardian or other person in the state having control and charge of any child between the ages of 6 and 16 will send him to school, equipped with the proper textbooks necessary to pursue his school work, for the entire school year. The attendance will be continuous and consecutive for the school year fixed by the district in which the child is enrolled. In school districts which maintain school during the entire year and in which the school year is divided into quarters, no child will be compelled to attend the public schools more than 3 quarters in any one year; but a child will not be absent for any 2 consecutive quarters.	parent, guardian, or other person	X				
	b) A child becoming 6 years of age before 12/1 will be enrolled on the first day of the school year in which his 6th birthday occurs. A child becoming 6 years of age on or after 12/1 will be enrolled on the first day of the school year following the school year in which his 6th birthday occurs.						
Statutes §15.3732 (1948, 1971)	In the following cases, children will not be required to attend the public schools:						
	a) Any child who is attending regularly and is being taught in a private, parochial or denominational school which has complied with all the provision of this act and teaches subjects comparable to those taught in the public schools to children of corresponding age and grade, as determined by the local district public schools course of study.						
	b) Any child who is regularly employed as a page or messenger in either branch of the legislature during the period of employment.						
	c) Children under 9 years who do not reside within 2 1/2 miles by the nearest traveled road, of some public school. The exemption does not apply if transportation is furnished for pupils in the district.						
	d) Any child 12 to 14 years in attendance at confirmation classes conducted for a period of not to exceed 5 months in either of the years.						
	e) Any child regularly enrolled in the public schools while in attendance at religious instruction classes for not more than 2 class hours per week, off school property during public school hours upon written request of the parent, guardian or person in loco parentis in accordance with rules prescribed in accordance with the superintendent of public instruction.	supt. of pub. instr. §15.1919 (543) (1973)	Districts offering reading support service programs approved by the department are entitled to 75% of the salary, not to exceed $8100 for any individual salary of a reading support service teacher approved by the department.	dept. of ed.			X		
	The state board may prescribe by rules for the maximum number of pupils per teacher to be counted. A sum of $4 million is appropriated for reading support service programs to be used for teacher's salaries.	schl. districts	X				
	School districts providing reading support services under the provisions of this chapter will submit, as part of their application for approval, performance objectives for their reading programs, and will provide annually to the department of education the results of an external evaluation and audit based upon the previously submitted objectives. The annual evaluation and audit requirements will be described by rules promulgated by the state board of education.	schl. dist. dept. of ed. st. bd. of ed.	X		X X		
§15.1919 (546) (1973)	From the statewide allocation, $500,000 is allocated to the neighborhood education authority for the purpose of allocation to applicant domestic non-profit corporations to operate neighborhood education centers.						
§15.1919 (548)	From the statewide allocation, $500,000 is allocated to applicant districts or intermediate districts for nonresidential alternative juvenile rehabilitation programs. These are programs for youth who have been found to need remedial academic and social rehabilitative services. To be eligible for state funds, the county board of commissioners or the supervising school district must agree to fund the balance of the cost of the program. The district may apply for state and federal moneys for reimbursement of $7,500 for the salary of each professional program personnel. The program will be evaluated annually by the department of education.	county bd. of comm'rs or supvising schl. dist. district dept. of ed.	X		X	X

§15.1919 (551) (1972)	There is authorized a program of not to exceed $100 million for the purpose of reimbursing districts for special education programs, services and personnel. A sum not to exceed $16 million of this amount will be federal funds; the state will make up the difference in funding. Reimbursement of salaries will be at a rate of 75% for the actual cost, not to exceed $8100 for any individual salary.						
§15.1919 (552) (1972)	Districts conducting special education programs and services for the hearing impaired, physically handicapped and visually handicapped will be allocated an additional amount not to exceed 75% of the cost for equipment, for teachers, and for expenses.						
§15.1919 (553) (1972)	Intermediate districts shall be entitled to additional funds for the purpose of establishing programs and services for trainable individuals who are not currently eligible for mentally handicapped programs. The amount allocated will not exceed 75% of the cost of these programs including transportation.						
§15.1919 (554) (1972)	A district providing board and room for children being educated under provisions for special education programs and services will be allowed an amount sufficient to pay the board and room.						
§15.1919 (561) (1973)	There is allocated the sum of $17,500,000 to reimburse districts and secondary area vocational centers for secondary level vocational education programs on an added cost basis.						
	The department of education defines what constitutes the programs and reimbursement is in accordance with its rules. The allocation of added cost funds is based on the type of vocational programs involved, the number of students and the length of the training program.						
§15.1919 (571) (1972)	Districts transporting pupils from the vicinity of their homes to the schools they attend and return will be granted allotments from the school aid fund in amounts determined by the department of education not to exceed 75% of the actual [illegible] of transportation. Allotments will not be given for the transportation of children living within 1 1/2 miles of the schools they attend. Although the children may live 1 1/2 miles or more from the schools they attend, allotments will not be given for children living within the corporate limits of cities or villages unless a condition which is set forth in the statute exists.	dept. of ed.			X		
§15.1919 (572) (1972)	A district not maintaining school within the district may participate in the school aid fund under this section. The total amount allocated will be an amount determined by the department of education not to exceed 75% of the actual cost of transportation, less a sum equal to 5.86 mills.	dept. of ed.			X

Statutes §15.1919 (531) (1972)	There is allocated $22.5 million to enable eligible districts to establish, or to continue with whatever federal funds may be available under Title I of Public Law 89-10, comprehensive compensatory education programs designed to improve the achievement in basic cognitive skills of pupils enrolled in grades K through 6. The funds are for pupils who have extraordinary need for special assistance to improve their competence in basic skills and for whom the districts are not already receiving special funds for special education programs. The amount allocated will not exceed $200 of state funds per eligible pupil participating in the program.						
§15.1919 (532) (1972)	A district will be eligible for allocations if at least 15% of its total enrollment in grades K-6 and not less than 30 of its pupils are found to be in need of substantial improvement in their basic cognitive skills.						
§15.1919 (533) (1972)	The number of pupils in grades K-6 construed to be in need of substantial improvement in their basic cognitive skills will be determined by: a) using the composite achievement test score only on state assessment battery, a percentile ranking will be made statewide for the scores of pupils in grade 4 and grade 7. b) the percent of 4th grade pupils who scored below the 15th percentile according to statewide norms will be determined and multiplied by the aggregate enrollment of the district. c) the percent of 7th grade pupils in the district who scored below the 15 percentile will be determined and multiplied times the aggregate enrollment of the district in grades 5 and 6. d) the sum of the b) and c) will be construed to represent the number of pupils in grades K-6 who are in need of substantial improvement in their basic cognitive skills.						
§15.1919 (534) (1972)	The tentative allocations to each eligible district will be determined by multiplying the number of pupils by $200.						
§15.1919 (535) (1972)	Distribution will begin with the district with the highest concentration of these pupils and continue in descending order until all of the moneys appropriated have been distributed, if:						
	1) The districts have shown evidence of having established comparability among the schools within their boundaries in accordance with standards established by the state board.	st. bd. of ed.			X

	2) The districts have applied for the moneys on forms provided by the department.	districts	X				
	3) The districts have committed themselves to the involvement of parents, teachers and administrators in the planning and continuous evaluation of their compensatory education programs.						
	4) The districts have identified the performance objectives of their compensatory education programs. Performance objectives are concerned with the improvement of pupil's performance in the basic cognitive skills.						
	5) The districts have certified that they have identified the pupils to be provided with special assistance.						
§15.1919 (536) (1972)	A district receiving money under the act may use the funds in any manner which, in its judgment, contributes significantly toward substantial improvements in the basic cognitive skills. These uses may include but, are not limited to: a) employment of additional personnel; b) purchase of instructional devices; c) leasing of portable classrooms; d) contracting with a public or a private agency; e) providing in-service training to teachers; f) providing adequate nutrition and health care to students.	district				X	
§15.1919 (537)	As a condition of receiving moneys, an assessment or evaluation of the progress of each pupil under this act will be made with the use of pre-tests and post-tests. These tests will be administered by the department of education in accordance with policies of the state board to determine the amount of progress made by the pupils toward attainment of the performance objective specified in .1919(535).	dept. of ed. st. bd.			X X		
	See Evaluation						
	In the subsequent year for each pupil making a minimum gain during the year of at least 75% of the skills in the performance objectives, the district will receive the full per pupil amount of funds allocated to the district. For those pupils who do not achieve at least 75% gain, the district will receive an amount per pupil prorated in the proportion that the amount of actual gain made bears to 75% of the total skills listed. Regardless of gain levels, a district will be paid in full for a pupil who has migrated from the district during the school year and for a pupil who has not attended school for a minimum period of 150 days because of health reasons verified by a medical authority.

Objectives and Proced.: Report of the 1973-74 Michigan Educational Assessment Program	Evaluation is undertaken by the Michigan Educational Assessment Program (MEAP). Educational assessment is the third of six "Common Goals of Michigan Education." Educational Assessment provides general information on student needs which will assist in identifying problem areas on the part of local school and pupils. By analyzing the results of the data, local districts can determine whether performance objectives have been met. The State Board of Education has given its approval to four sets of performance objectives: science, mathematics, K-6 reading, and pre-primary. The test used to measure these objectives is the new objective reference test, a substitute for the normative survey test. An expansion of the assessment program would mean the development of new objective - referenced test instruments. It is anticipated that the Department of Education will use the following procedure: 1) analyze the "Common Goals of Michigan Education," 2) adopt performance objectices in the priority skill areas, 3) select Michigan school districts to develop test items that are directly linked to performance objectives, 4) select a major testing company to act as a technical consultant for the school districts and department of educational personnel, 5) validate the objective referenced items in Michigan school districts, and 6) produce objective referenced instruments which will be used in the future educational assessment program. The major purpose of the MEAP is to provide information to citizens and educators with which they can make educational decisions. Within this broad purpose are encompassed three specific objectives: 1) to provide the state board of education, the executive office, the legislature and citizens with data describing the levels of basic skills, educational attainment and other relevant descriptive data about each of the schools and school districts. 2) to provide local educators with specific information about the levels of basic skills, educational attainment of students and of other relevant descriptive data for their own schools and school districts.

	3) to provide information regarding the progress of the Michigan education system as a whole and the progress of its school districts and schools over a period of years.						
	Under these three classifications, district, school, and classroom, there are seven categories which measure the quality of the educational program: human resources; district financial resources; percent minority; drop-out rate; student achievement; size measures; and attitudes. Students are measured in their fourth and seventh grades in mathematics, reading, and word relationships.						
	The following is a summary of the enabling legislation for MEAP, the Assessment and Remedial Program Act of 1970:						
Statutes §15.2085 (11) (1970)	A statewide program of assessment of educational progress and remedial assistance in the basic skills of students in reading, mathematics, language arts and for other general subject areas is established in the department of education. The program will: a) establish meaningful achievement goals for students with the greatest educational needs; b) provide the state with the information needed to allocate state funds and services in a manner best calculated to achieve equal educational opportunities for students to achieve competence in basic skills. c) provide school systems with strong incentives to introduce educational programs to improve the education of students in basic skills. d) develop a system for educational self-renewal that would continuously evaluate the programs and thus help each school to introduce qualitative program changes. e) provide the public periodically with information concerning the progress of the state system of education.						
§15.2085 (12)	The statewide assessment program of education will cover all students annually at two grade levels in the public schools.						
	The department of education will develop and conduct the program, utilizing the assistance of appropriate testing organizations. The program will expand the current basic skills testing inventory in grades 4 and 7; assess competencies in basic skills; collect relevant information essential to the assessment program; identify students who have extraordinary need for assistance	dept. of ed. 	to improve their competence, and provide each school with information on its students so it can improve the achievement of students in basic skills.						
§15.2085 (13) (1970)	Based on information from the mathematics, reading and language arts assessment programs, the department of education provides remedial assistance programs, as funds are available by law, to school districts to raise competencies in basic skills of students. A funded program will include: diagnosis of each student's performance difficulties and the development of an individualized instructional program; provision for selection and installation of instructional systems that take into account student needs; and provision for an evaluation of the program.	dept. of ed.	X				
	The department of education establishes guidelines for the program. It provides technical assistance to each school district in its implementation of the guidelines.	dept. of ed. "		X	X		
	The department of education provides for training of staff who would be involved in these programs; it establishes demonstration projects in basic skills; it conducts the necessary evaluations to provide adequate information for the setting of guidelines.	"	X				
	A remedial assistance program will be audited as part of its evaluation by an agency independent of the state department of education to facilitate the accountability of each school for its programs.						
§15.2085 (14) (1970)	A vocational education demonstration program is established in the department of education to develop, test, and evaluate the following innovative programs:						
	a) a vocational assessment and counseling system using computer and other automated devices;						
	b) a new career development program to devise curricula and materials for new careers in the labor market.

Statute §15.3921 (1948)	It is unlawful for any pupil of the elementary schools and the high schools of the state to organize, join or belong to any high school fraternity, sorority or any other secret society. A public school fraternity, sorority or secret society is defined to be an organization whose active membership is composed of public school pupils perpetuating itself by taking in additional members from the pupils enrolled in the public schools on the basis of the decision of its membership, rather than upon the right of any pupil who is qualified by the rules of the school to be a member and take part in any group class or group exercises.						
§15.3922 (1948)	It is the duty of each board to prohibit the organization or operation of such fraternity, sorority or secret society and it may suspend or expel from school any pupils who will remain, pledge, join, or solicit in connection with membership.	each bd. of ed.	X				
§15.3923 (1948)	It will be illegal to give credit for a subject pursued, to promote from grade to grade or to graduate any person who knowingly violates the provisions of this chapter, or having violated it, persists in its violation. Any credit given contrary to these provisions will not be accepted by any other school or educational institution within this state.						
§15.3924 (1948)	Any school official or member of any board or other person who violates, knowingly permits or consents to a violation of this provisions will be guilty of a misdemeanor, punished by a fine of $25-$100 for each offense.						
§15.3379 (1972)	A school district may join or permit its schools to join any organization, association or league which has as its object the promotion of sports or the adoption of rules for the conduct of athletic, or oratorical, musical, dramatic or other contests between school children if the organization, association or league provides in its constitution or by-laws that the superintendent of public instruction or his representatives will be an ex-officio member of its governing body. The superintendent will report to the legislature before each session as to the activities of any such organization and will recommend any necessary legislation. The association is the official association of the state for conducting athletic events, contests and tournaments among schools and will be responsible for the adoption and enforcement of rules relative to eligibility of athletes in schools for participation in inter-school athletic events, contests and tournaments.	schl. dist. 	Female pupils are permitted to take part in all non-contact interscholastic athletic activities, including, but not limited to, archery, badminton, bowling, fencing, golf, gymnastics, riflery, shuffleboard, skiing, swimming, diving, table tennis, track and field and tennis. Even if the institution does not have a girls' team, the female is permitted to compete for a position on the boys' team. Nothing prevents the selection of competing teams solely on the basis of athletic ability.						
MSA §15. 3788	Insurance and Medical Care - Boards of education may provide medical care, including costs of hospitalization, for students injured during participation in an interscholastic athletic activity. Funds of the district may be expended for the employment of qualified persons to provide medical care, or for payment for all or part of the cost of participation in mutual benefit or insurance programs. A fee may be imposed upon participants in interscholastic athletic activities for all or a part of the cost of medical care, or for insurance protection, providing that no student shall be barred from participation in such an athletic activity because of inability to pay the fee.

Statutes §15.1919 (514) (1972)	If the returns from any intermediate district or district upon which a statement of the amount to be disbursed or paid to are so defective as to render it impracticable to ascertain the share of the appropriation to be disbursed or paid, the department of education will ascertain the facts upon which the ratio and the amount of the apportionment depend and make the apportionment accordingly.	dept. of ed.	X				
§15.1919 (515) (1972)	If a district fails to receive its proper share of the appropriation due, the department of education will apportion the deficiency in the next apportionment upon satisfactory proof. If a district has received more than its proper share of the appropriation, the department will deduct the excess in the next apportionment.	dept. of ed.	X				
§15.1919 (516)	A district will not receive more allowance than the actual amounts paid by the district and if a district has received more than it paid, the excess will be deducted in its next apportionment.						
§15.1919 (517) (1972)	On or before 8/1/ 10/1, 12/1, 2/1, 4/1 and 6/1, the department of education will prepare a statement of the amount to be distributed to the districts and deliver the statement to the state treasurer, who draws his warrant in favor of the treasurer of each district for the amount payable to the district.	dept. of ed.	X				
§15.1919 (518) (1972)	For the purpose of determining the reasonableness of expenditures and whether any violation of the act has occurred, the department of education will require that districts have audits of their financial and child accounting records at their own expense by certified public accountants or by intermediate district superintendents or in first class districts, also by the auditor general of the city. The audits will be subject to rules of the state board in consultation with the state auditor general. Copies will be filed when required by the state board and will be open at all reasonable times for public inspection.	districts certified public accountants interm. dist. supt. city auditors st. bd. auditor general	X		X X		
§15.3252 (1966)	It will be the duty of the superintendent of public instruction to examine and audit the official records and accounts of any school district and require corrections when necessary and to require an accounting from the treasurer of any school district when necessary; and to prescribe appropriate uniform child and finance accounting records for use in the school districts and to make such rules and regulations for their adoption as are necessary.	supt. of pub. instr.
